DRAKENSTEIN MUNICIPALITY

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2017

1. BASIS OF PRESENTATION

The annual financial statements were prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

The annual financial statements were prepared on the accrual basis of accounting and incorporate the historical cost conventions as the basis of measurement, except where specified otherwise.

In the absence of an issued and effective Standards of GRAP, accounting policies for material transactions, events or conditions were developed in accordance with GRAP 3 as read with Directive 5. Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

The principal accounting policies, applied in the preparation of the annual financial statements, are set out below. These accounting policies are consistent with those applied in the preparation of the prior year annual financial statements, unless specified otherwise. Details of any changes in the accounting policies are provided in the notes on changes in accounting policies.

These standards are summarised as follows:

Reference	Topic
GRAP Framework	Framework for the preparation and presentation of financial statements
GRAP 1	Presentation of Financial Statements
GRAP 2	Cash Flow Statements
GRAP 3	Accounting Policies, Changes in Accounting Estimates and Errors
GRAP 4	The Effects of Changes in Foreign Exchange Rates
GRAP 5	Borrowing Costs
GRAP 6	Consolidated and Separate Financial Statements
GRAP 7	Investment in Associates

GRAP 8	Investment in Joint Ventures
GRAP 9	Revenue from Exchange Transactions
GRAP 10	Financial Reporting in Hyperinflationary Economies
GRAP 11	Construction Contracts
GRAP 12	Inventories
GRAP 13	Leases
GRAP 14	Events After the Reporting Date
GRAP 16	Investment Property
GRAP 17	Property, Plant and Equipment
GRAP 19	Provisions, Contingent Liabilities and Contingent Assets
GRAP 21	Impairment of Non-cash-generating Assets
GRAP 23	Revenue from Non-exchange Transactions
GRAP 24	Presentation of Budget Information in Financial Statements
GRAP 25	Employee Benefits - issued December 2009
GRAP 26	Impairment of Cash-generating Assets
GRAP 27	Agriculture
GRAP 31	Intangible Assets
GRAP 100	Discontinued Operations
GRAP 103	Heritage Assets
GRAP 104	Financial Instruments
GRAP 105	Transfers of Functions Between Entities Under Common Control
GRAP 106	Transfers of Functions Between Entities Not Under Common Control
GRAP 107	Mergers
IFRS 4	Insurance contracts
IFRS 6	Exploration for and evaluation of mineral resources
IAS 12	Income taxes
IGRAP 1	Applying the probable test on initial recognition of revenue
IGRAP 2	Changes in Existing Decommissioning, Restoration and Similar Liabilities
IGRAP 3	Determining whether an Arrangement Contains a lease
IGRAP 4	Rights to Interest Arising from Decommissioning, Restoration and Environmental Rehabilitation Funds
IGRAP 5	Applying the Restatement Approach under the Standard of GRAP on Financial Reporting in Hyperinflationary Economies
IGRAP 6	Loyalty Programmes
IGRAP 7	The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction
IGRAP 8	Agreements for the construction of Assets from Exchange Transactions
IGRAP 9	Distributions of Non-cash Assets to Owners
IGRAP 10	Assets Received from Customers
IGRAP 11	Consolidations - Special Purpose Entities
IGRAP 12	Jointly Controlled Entities - Non-monetary Contributions by Ventures
IGRAP 13	Operating Leases - Incentives
IGRAP 14	Evaluating the Substance of Transactions Involving the Legal Form of a Lease
IGRAP 15	Revenue - Barter Transactions Involving Advertising Services
IGRAP 16	Intangible Assets - Website Costs
IFRIC 12	Service concession arrangements
IFRIC 21	Leases

SIC 25	Income taxes – Changes in the status of an enterprise or its shareholders
SIC 29	Disclosure service concession
Directive 1	Repeal of existing transitional provisions in, and consequential amendments to, standards of GRAP
Directive 3	Transitional provisions for high capacity municipalities
Directive 5	Determine the GRAP reporting framework
Directive 7	The Application of Deemed Cost
Directive 11	Changes in the Measurement Bases Following the Initial Adoption of the Standards of GRAP
ASB Guide 1	Guideline on accounting for public private partnerships

The Cash Flow Statement is prepared using the direct method, whereby major classes of gross cash receipts and gross cash payments are disclosed.

Accounting policies for material transactions, events or conditions not covered by the above GRAP standards have been developed in accordance with GRAP 3. Where required, accounting policies were developed for standards of GRAP that have been issued by the Accounting Standards Board, but for which an effective date have not been determined by the Minister of Finance.

2.

STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

Reference	Topic
GRAP 18	Segment Reporting - issued March 2005
GRAP 20	Related Party Disclosures (Revised)
GRAP 32	Service Concession Arrangement Grantor
GRAP 108	Statutory Receivables
GRAP 109	Accounting by Principals and Agents
IGRAP 17	Service Concession Arrangements Where a Grantor Controls a Significant Residual Interest in an Asset

All other standards as listed above will only be effective when a date is announced by the Minister of Finance.

The ASB Directive 5 sets out the principles for the application of the GRAP 3 guidelines in the determination of the GRAP Reporting Framework hierarchy, as set out in the standard of GRAP 3 on Accounting Policies, Changes in Accounting Estimates and Errors.

Where a standard of GRAP is approved as effective, it replaces the equivalent statement of International Public Sector Accounting Standards Board or, International Financial Reporting Standards. Where a standard of GRAP has been issued, but is not in effect, an entity may select to apply the principles established in that standard in developing an appropriate accounting policy dealing with a particular section or event before applying the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors.

Management has considered all of the above-mentioned GRAP standards issued but not effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

3.

PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand and are rounded off to the nearest Rand.

4.

GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

5.

OFFSETTING

Financial assets and liabilities are offset and the net amount reported on the Statement of Financial Position when there is a legally enforceable right to set off the recognised amount, and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

6. COMPARATIVE INFORMATION AND BUDGET INFORMATION

6.1 Current year comparatives

The annual budget figures have been prepared in accordance with the GRAP standard and are consistent with the accounting policies adopted by the Council for the preparation of these financial statements. The amounts are scheduled as a separate additional financial statement, called the Statement of Comparison of Budget and Actual amounts. Explanatory comment is provided in the notes to the annual financial statements giving motivations for over- or under spending on line items where it is found to be material. The annual budget figures included in the financial statements are for the Municipality and do not include budget information relating to subsidiaries or associates. These figures are those approved by the Council at the beginning and during the year following a period of consultation with the public as part of the Integrated Development Plan. The budget is approved on an accrual basis by nature classification. The approved budget covers the period from 1 July 2016 to 30 June 2017.

In general a difference of 10% or more is considered material, although the surrounding circumstances are taken into account if it could influence the decisions or assessments of the users of the financial statements in determining whether a difference between the budgeted and actual amount is material.

6.2 Prior year comparatives

The comparative figures of one prior period disclosed. When the presentation or classification of items in the Annual Financial Statements is amended, prior period comparative amounts are reclassified. The nature and reasons for the reclassification are disclosed.

7. HOUSING DEVELOPMENT FUND

The Housing Development Fund was established in terms of the Housing Act (Act No. 107 of 1997).

7.1 Housing Development Fund

Sections 15(5) and 16 of the Housing Act, (Act 107 of 1997), which came into operation on 1 April 1998, required that the Municipality maintain a separate housing operating account. This legislated separate operating account is known as the Housing Development Fund.

The Housing Act also requires in terms of Section 14(4) (d) (iii) (aa), read with, inter alia, Section 16(2), that the net proceeds of any letting, sale or alienation of property, previously financed from government housing funds, be paid into a separate operating account, and be utilised by the Municipality for housing development in accordance with the National Housing Policy. The following provisions are set for the creation and utilisation of the Housing Development Fund:

- The proceeds in this fund are utilised for housing development in accordance with the National Housing Policy, and also for housing development projects approved by the National Minister of Human Settlements.
- Any contributions to or from the fund are shown as transfers in the Statement of Changes in Net Assets.
- Interest earned on the investments of the fund is disclosed as interest earned in the Statement of Financial Performance.

7.2 Un-realized Housing Proceeds

In order to comply with Section 14(4) (d) (i) and (ii) of the Housing Act, (Act 107 of 1997) where all net proceeds need to be paid into the Housing Development Fund, it was necessary to create a holding account which represents the un-realized funds due by long-term housing selling schemes and sponsored loan debtors. This account is reduced when debtors are billed for their payment.

8. INTERNAL RESERVES AND REVALUATION RESERVE

8.1 Insurance Reserve

A general Insurance Reserve has been established and, subject to re-insurance where deemed necessary, it covers claims not covered by external insurance. Premiums are charged to the respective services taking into account claims history and replacement value of the insured assets.

Insurance premiums paid to external insurers are regarded as an expense and are shown as such in the Statement of Financial Performance. The net surplus or deficit on the insurance operating account is transferred to or from the insurance reserve via the Statement of Changes in Net Assets.

The cash in the municipal bank or investment account, as per cash and cash equivalents in the Statement of Financial Position, is ring-fenced and can only be utilised to finance items of property, plant and equipment.

8.2 Revaluation Reserve

The surplus arising from the revaluation of land and buildings is credited to a non-distributable reserve. The revaluation surplus is realised as re-valued buildings are depreciated, through a transfer from the revaluation reserve to the accumulated surplus/ (deficit). On disposal, the net revaluation surplus is transferred to the accumulated surplus/ (deficit) while gains or losses on disposal, based on re-valued amounts are credited or charged to the Statement of Financial Performance.

9. PROVISIONS

Provisions are recognized when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made.

The best estimate of the expenditure required to settle the present obligation is the amount that an entity would rationally pay to settle the obligation at the reporting date or to transfer it to a third party at that time and are determined by the judgment of the management of the

entity, supplemented by experience of similar transactions and, in some cases, reports from independent experts. The evidence considered includes any additional evidence provided by events after the reporting date. Uncertainties surrounding the amount to be recognised as a provision are dealt with by various means according to the circumstances, where the provision being measured involves a large population of items; the obligation is estimated by weighing all possible outcomes by their associated probabilities.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision. An onerous contract is a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfill it - this unavoidable cost resulting from the contract is the amount of the provision to be recognised.

Provisions are reviewed at reporting date and the amount of a provision is the present value of the expenditure expected to be required to settle the obligation. When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the Statement of Financial Performance as a finance cost as it occurs.

9.1

Environmental rehabilitation provisions

Estimated long-term environmental provisions, comprising rehabilitation and landfill site closure, are based on the Municipality's policy, taking into account current technological, environmental and regulatory requirements. The provision for rehabilitation is recognised as and when the environmental liability arises. To the extent that the obligations relate to the asset, they are capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are charged to the Statement of Financial Performance.

10. PROPERTY, PLANT AND EQUIPMENT

10.1 Initial recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of property, plant and equipment is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

Property, plant and equipment are initially recognised at cost on its acquisition date. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an item of property, plant and equipment acquired in exchange for a non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

Subsequent expenditure relating to property, plant and equipment is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the entity and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all property plant and equipment, excluding land and buildings, are measured at cost, less accumulated depreciation and accumulated impairment losses.

Subsequent to initial recognition, land and buildings are carried at a revalued amount based on municipal valuations, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are performed by external independent valuers every four years to coincide with the implementation of the general valuation such that the carrying amount does not differ materially from that which would be determined using fair value at the Statement of Financial Position date. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset, and the net amount is restated to the revalued amount of the asset.

An increase in the carrying amount of land and buildings as a result of a revaluation is credited directly to a revaluation surplus reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

A decrease in the carrying amount of an asset as a result of a revaluation is recognised in surplus or deficit, except to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified except where the impairment reverses a previous revaluation."

When revalued assets are sold or retired, the amounts included in the revaluation reserve in respect of that assets, are transferred to accumulated surplus or deficit.

Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is included in surplus or deficit when the compensation becomes receivable.

10.3 Depreciation

Land is not depreciated as it is regarded as having an unlimited life. Depreciation on assets other than land is calculated using the straight line method, to allocate their cost or revalued amounts less their residual values over the estimated useful lives of the assets. The depreciation method used reflects the pattern in which the assets' future economic benefits or service potential are expected to be consumed by the municipality. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item shall be depreciated separately. The depreciation rates are based on the following estimated useful lives.

The estimated useful life, residual values and depreciation method are reviewed annually at the end of the financial year. Any adjustments arising from the annual review are applied prospectively.

Asset class	Useful lives as applied in the AR (years)
Infrastructure	
Roads and storm water	5-100
Electricity	5-75
Water	5-100
Sewerage	5-100
Solid Waste	5-100
Buildings, structures and facilities	
Buildings	50
Recreational and sports facilities	5-100
Parks, gardens and cemeteries	5-100
Housing assets	50
Other assets	
Transport Assets	5-20
Computer and other office equipment	3-10
Furniture & fittings	5-10
Machinery and equipment	5-10

The useful lives, residual values and depreciation method are reviewed annually at the end of the financial year where there is any indication that the entity's expectations about the residual

accumulated amortisation and accumulated impairment losses.

Intangible assets acquired separately or internally generated are reported at cost less

as at the date of acquisition. Trade discounts and rebates are deducted in arriving at the cost.

an intangible asset is acquired at no cost, or for a nominal cost, the cost shall be its fair value

necessary for it to be capable of operating in the manner intended by the municipality, or where

amount and the useful life of an asset has changed since the preceding reporting date. Any

Amortization is calculated on cost, using the straight-line method, over the useful lives of the assets, which is estimated to be between 3 to 10 years upon initial recognition. Where intangible assets are deemed to have an indefinite useful life, such intangible assets are not amortised.

Intangible assets are annually tested for impairment and the estimated useful life, residual values and amortisation method are reviewed annually at the end of the financial year. Any adjustments arising from the annual review are applied prospectively.

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the net disposals proceeds and the carrying value and is recognised in the Statement of Financial Performance.

12. INVESTMENT PROPERTIES

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

At initial recognition, the municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition.

Where the classification of an investment property is based on management's judgement, the following criteria have been applied to distinguish investment properties from owner-occupied property or property held for resale:

- All properties held to earn market-related rentals or for capital appreciation or both and that are not used for administrative purposes and that will not be sold within the next 12 months are classified as Investment Properties.

- Land held for a currently undetermined future use.
- A building owned (or held by under a finance lease) and leased out under one or more operating leases.
- Leased properties that are held to provide a social (community) service or that are necessary for employees to perform their job functions, but which also generates rental revenue are not seen as investment properties. The rental revenue generated is incidental to the purposes for which the property is held.
- A building that is vacant but is held to be leased out under one or more operating leases.
- Property that is being constructed or developed for future use as investment property;

Investment property is subsequently measured using the fair value model. Investment property is carried at fair value, representing open market value determined by external valuers on reporting date. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. A gain or loss arising from a change in the fair value of investment property is included in surplus or deficit for the period in which it arises.

If the Municipality determines that the fair value of an investment property under construction is not reliably measurable but expects the fair value to be reliably measurable when construction is completed, it measures that investment property at cost until the fair value can be reliably determined or construction has been completed.

Where the Municipality has determined that the fair value of an investment property (other than investment property under construction) is not determinable on a continuing basis, the entity measures that investment property using the cost model (as per the accounting policy for property, plant and equipment).

An investment property shall be derecognised (eliminated from the statement of financial position) on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal. The gain or loss arising on the disposal of an investment property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

13. HERITAGE ASSETS

A heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance, and is held and preserved indefinitely for the benefit of present and future generations.

The Municipality classifies assets as heritage assets where the significance as a heritage asset can be determined. In regards to land and buildings all graded sites are classified as Heritage Assets. Furthermore land with a natural significance is not componentised but seen as a single Heritage asset due to all parts contributing together to make up its significance.

GRAP 103 requires that land and buildings that qualify as Heritage assets, but of which a significant portion of that land and buildings is held for use in the production or supply of goods or services or for administrative purposes, should be recognised as property, plant and equipment, rather than heritage assets.

13.1 Initial recognition

The cost of an item of heritage assets is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

Heritage assets are initially recognised at cost on its acquisition date or in the case of assets acquired by grant or donation, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of heritage assets is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an item of heritage assets acquired in exchange for a non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly

evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

13.2 Subsequent measurement

Subsequent expenditure relating to heritage assets is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the entity and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all heritage assets (excluding Heritage assets which are land and buildings) are measured at cost less accumulated impairment losses. Heritage assets are not depreciated.

Subsequent to initial recognition, land and buildings which qualify as Heritage Assets are carried at a revalued amount based on municipal valuations less subsequent accumulated impairment losses. Revaluations are performed by external independent valuers every four years to coincide with the implementation of the general valuation such that the carrying amount does not differ materially from that which would be determined using fair value at the Statement of Financial Position date.

13.3 De-recognition of heritage assets

The carrying amount of an item of heritage assets is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the de-recognition of an item of heritage assets is included in surplus or deficit when the item is derecognised.

Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated impairment losses) and the disposal proceeds is included in the Statement of Financial Performance as a gain or loss on disposal of heritage assets.

14. INVENTORIES

Inventories consist of raw materials, work in progress, consumables and finished goods, which are valued at the lower of cost, determined on the first in first out basis, and net realisable value, except for plants which are valued at the tariffs charged. Where it is held for distribution or consumption at no charge or for a nominal amount, inventories are valued at the lower of cost and current replacement value.

Cost of inventories comprises all costs of purchase, cost of conversion, and other costs incurred in bringing the inventories to their present location and condition.

Redundant and slow moving inventories are identified and written down to their estimated net realisable values. Inventories are written down according to their age, condition and utility. Differences arising on the measurement of such inventory at the lower of cost and net realisable value are recognised in the Statement of Financial Performance in the year in which they arise. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

14.1 Water inventory

Water is regarded as inventory when the municipality purchases water in bulk with the intention to resell it to the consumers or to use it internally, or where the municipality has incurred purification costs on water obtained from natural resources (rain, rivers, springs, boreholes etc.). However, water in dams, that are filled by natural resources and that has not yet been treated, and is under the control of the municipality but cannot be measured reliably as there is no cost attached to the water, and it is therefore not recognised in the statement of financial position.

The basis of determining the cost of water purchased and not yet sold at statement of financial position date comprises all costs of purchase, cost of conversion and other costs incurred in bringing the inventory to its present location and condition, net of trade discounts and rebates.

Water is valued by using the weighted average method, at the lowest of purified cost and net realisable value, insofar as it is stored and controlled in reservoirs at year-end.

14.2 Housing inventory

Housing inventory is BNG (Building New Ground) houses still in process of construction, or completed and not yet transferred. These houses are entirely funded by the National Department of Human Settlements, through the Western Cape Department of Human Settlements, but the Municipality is regarded as a principal in terms of the current interpretation of GRAP of Agent and Principal transactions and therefore recognises these costs as inventory up to the point of transfer to the allocated beneficiary where after the cost is expensed through the Statement of Financial Performance. Housing inventory is measured at the lower of cost and current replacement cost as they will be distributed through a non-exchange transaction.

15. DISCONTINUED OPERATIONS

15.1 Initial recognition

A discontinued operation refers to the disposal of a significant operating activity within the Municipality.

15.2 Subsequent measurement

Disposal groups were measured at the lower of their previous carrying amount and fair value less costs to sell in the previous reporting period.

The non-current assets were not depreciated (or amortised) while they were held as of a disposal group classified.

Interest and other expenses attributable to the liabilities of the disposal group classified as held for sale were recognised in surplus or deficit.

The gain or loss on the disposal of the discontinued operation is presented separately from continuing operations on the face of the Statement of Financial Performance.

16. IMPAIRMENT OF PROPERTY, PLANT AND EQUIPMENT, INTANGIBLE ASSETS AND HERITAGE ASSETS

The municipality classifies all assets held with the primary objective of generating a commercial return as cash-generating assets. A commercial return means that the return charged by the entity is commensurate with the risk associated with holding the asset and the asset is intended to generate positive cash inflows. All other assets are classified as non-cash-generating assets.

16.1 Impairment of cash generating assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the individual asset.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash-generating unit to which the asset belongs is determined.

The best evidence of fair value less cost to sell is the price in a binding sale agreement in an arm's length transaction, adjusted for the incremental cost that would be directly attributable to the disposal of the asset.

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

An impairment of assets carried at revalued amount reduces the revaluation surplus for that asset. The decrease shall be debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

An impairment loss is recognised for cash-generating units if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

A municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

16.2 Impairment of non-cash generating assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount is the higher of a non-cash generating asset's fair value less costs to sell and its value in use. The value in use for a non-cash generating asset is the present value of the asset's remaining service potential.

The value in use for a non-cash generating asset is the present value of the asset's remaining service potential.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable and willing parties, less the costs of disposal.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any impairment loss of a revalued asset is treated as a revaluation decrease.

A municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

17. EMPLOYEE BENEFITS

The municipality provides short term benefits, long term benefits and retirement benefits for its employees and councillors.

17.1 Short-term employee benefits

Remuneration to employees is recognised in the Statement of Financial Performance as the services are rendered, except for non-accumulating benefits which are only recognised when the specific event occurs.

The costs of all short-term employee benefits such as leave pay, are recognised during the period in which the employee renders the related service.

17.2 Post-employment benefits: Defined contribution plans

A defined contribution plan is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees.

17.3 Post-employment benefits: Defined benefit plans

A defined benefit plan is a plan that defines an amount of benefit that an employee will receive on retirement.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and unrecognised actuarial gains and losses, reduced by unrecognised past service costs. The plan is unfunded. The defined benefit obligation is calculated using the projected unit credit method, incorporating actuarial assumptions and a discount rate based on the government bond rate. Valuations of these obligations are carried out by independent qualified actuaries regularly, as may be required for fair presentation.

Actuarial gains or losses recognised immediately in the Statement of Financial Performance.

17.3.1 Post-retirement Health Care Benefits:

The municipality has an obligation to provide post-retirement health care benefits to certain of its retirees. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current Conditions of Service), on retirement, is entitled to remain a continued member of the Medical Aid Fund, in which case the municipality is liable for a certain portion of the medical aid membership fee.

The defined benefit liability is the aggregate of the present value of the defined benefit

obligation and unrecognised actuarial gains and losses, reduced by unrecognised past service costs. The plan is unfunded. The present value of the defined benefit obligation is calculated using the projected unit credit method, incorporating actuarial assumptions and a discount rate based on the government bond rate. Valuations of these obligations are carried out annually by independent qualified actuaries.

Past-service costs are recognised immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortised on a straight-line basis over the vesting period.

17.3.2 Ex-gratia Pension Benefits:

The Municipality provides pension and retirement gratuity benefits to certain employees who were in the employment of the former Paarl and Wellington Municipalities (now incorporated into the Drakenstein Municipality) at 31 December 1994 (Paarl) and 31 March 1995 (Wellington) and still in the employment of Drakenstein Municipality at date of normal retirement, medical disability, retrenchment or death. The gratuity is calculated on the salary benefits during 1994/1995.

17.4 Long-service allowance

The municipality has an obligation to provide Long-service Allowance Benefits to all of its employees. According to the rules of the Long-service Allowance Scheme, which the municipality instituted and operates, an employee (who is on the current Conditions of Service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 10, 15, 20, 25 and 30 years of continued service. The municipality's liability is based on an actuarial valuation. The projected unit credit method has been used to value the liabilities. Actuarial gains and losses on the long-term incentives are accounted for through the statement of financial performance.

17.5 National- and Provincially administered defined benefit plans

The municipality contributes to various National- and Provincial-administered Defined Benefit Plans on behalf of its qualifying employees. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. These defined benefit funds are actuarially valued triennially on the projected unit credit

method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

The municipality does not apply defined benefit accounting to the defined benefit funds to which it is a member where these funds are classified in terms of GRAP as multi-employer plans, as sufficient information is not available to apply the principles involved. As a result, GRAP 25 is applied and such funds are accounted for as defined contribution funds.

Salaried personnel are members of the Cape Joint Pension fund established in terms of the Local Authorities Pension Fund Ordinance, 1969 (Ordinance 23 of 1969), and the provisions of the Pension Fund Act, 1956 (Act 24 of 1956) or the SAMWU National Provident Fund.

17.6 Leave pay

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total accrued leave days at year end and is shown as an accrual in the Statement of Financial Position.

17.7 Provision for bonus

The municipality recognises the expected cost of bonuses as a provision only when the municipality has a present legal or constructive obligation to make such payment and a reliable estimate can be made at reporting date.

18. LEASES

18.1 Lease classification

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality.

Leases of property, plant and equipment, in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

18.2 The Municipality as lessee

Property, plant and equipment subject to finance lease agreements are capitalised at their cash cost equivalent. Corresponding liabilities are included in the Statement of Financial Position as Finance Lease Obligations. The cost of the item of property, plant and equipment is depreciated at appropriate rates on the straight-line basis over its estimated useful life. Lease payments are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are recognised on the straight-line basis over the term of the relevant lease.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

18.3 The Municipality as lessor

Amounts due from lessees under finance leases or instalment sale agreements are recorded as receivables at the amount of the Municipality's net investment in the leases. Finance lease or instalment sale income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Operating lease rental income is recognised on a straight-line basis over the term of the relevant lease.

19. BORROWINGS

Interest-bearing external loans and bank overdrafts are recorded net of direct issue costs. Finance charges, including premiums payable, are accounted for on an accrual basis. Borrowings are initially recognised at fair value, net of transaction costs. Subsequently, they are measured at amortised cost using the effective interest rate method.

Borrowing costs are recognised as an expense in the Statement of Financial Performance in the period incurred.

20. FINANCIAL INSTRUMENTS

The municipality has various types of financial instruments and these can be broadly categorised as either *Financial Assets* or *Financial Liabilities*.

A financial instrument is recognised if the municipality becomes a party to the contractual provisions of the instrument.

20.1 Classification of financial instruments

20.1.1 Financial Assets

A financial asset is any asset that is a cash or contractual right to receive cash. In accordance with GRAP 104 the Financial Assets of the municipality are classified as follows into the three categories allowed by this standard:

Financial asset at amortised cost being a non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months, which are classified as non-current assets.

Financial assets measured at fair value being financial assets that meet either of the following conditions:

- (a) Derivatives;
- (b) Combined instruments that are designated at fair value;
- (c) Instruments held for trading;
- (d) Non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; or
- (e) Financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Financial assets measured at cost being investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

Type of Financial Asset	Classification in terms of GRAP 104
Finance Lease Receivables	Financial assets at amortised cost
Long-term Receivables	Financial assets at amortised cost
Current portion of Long-term Receivables	Financial assets at amortised cost
Consumer Debtors	Financial assets at amortised cost
Other Debtors	Financial assets at amortised cost
Short-term Investment Deposits – Call	Financial assets at amortised cost
Bank Balances and Cash	Financial assets at amortised cost
Investments in stock – ESKOM	Financial assets at fair value

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets at amortised cost.

20.1.2 Financial Liabilities

A financial liability is a contractual obligation to deliver cash or another financial asset to another entity.

The following main categories of Financial Liabilities and the classification determining how they are measured exist:

- (i) Financial liabilities measured at fair value; or
- (ii) Financial liabilities measured at amortised cost

The municipality has the following types of financial liabilities as reflected on the face of the Statement of Financial Position or in the notes thereto:

Type of Financial Liabilities	Classification in terms of GRAP 104
Long term Liabilities	Financial liability at amortised cost
Other Creditors	Financial liability at amortised cost
Bank overdraft	Financial liability at amortised cost
Short-term Loans	Financial liability at amortised cost
Current portion of Long-Term Liabilities	Financial liability at amortised cost

Financial liabilities that are measured at fair value that are essentially held for trading (i.e. purchased with the intention to sell or repurchase in the short term; derivatives other than hedging instruments or are part of a portfolio of financial instruments where there is recent actual evidence of short-term profiteering or are derivatives)

Any other financial liabilities should be classified as financial liabilities at amortised cost.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

Initial and subsequent measurement Financial assets:

Financial asset at amortised cost are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. Subsequently, these assets are measured at amortised cost using the Effective Interest Method less any impairment, with interest recognised on an effective yield basis.

Trade and other receivables (excluding Value Added Taxation, prepayments and operating lease receivables), loans to Municipality entities and loans that have fixed and determinable payments that are not quoted in an active market are classified as financial asset at amortised cost.

Financial Assets measured at fair value are initially measured at fair value plus directly attributable transaction costs. They are subsequently measured at fair value with unrealised gains or losses recognised directly in equity until the investment is derecognised, at which time the cumulative gain or loss recorded in equity is recognised in the statement of financial performance, or determined to be impaired, at which time the cumulative loss recorded in equity is recognised in the statement of financial performance.

20.2.2 Financial liabilities:

Financial liabilities measured at fair value are stated at fair value, with any resulted gain or loss recognised in the Statement of Financial Performance.

Any other financial liabilities classified at amortised cost (All payables, loans and borrowings are classified as other liabilities) and are initially measured at fair value, net of transaction costs. Trade and other payables, interest bearing debt including finance lease liabilities, non-interest bearing debt and bank borrowings are subsequently measured at amortised cost using the effective interest rate method. Interest expense is recognised in the Statement of Financial Performance by applying the effective interest rate.

Bank borrowings, consisting of interest-bearing short-term bank loans, repayable on demand and overdrafts are recorded at the proceeds received. Finance costs are accounted for using the accrual basis and are added to the carrying amount of the bank borrowing to the extent that they are not settled in the period that they arise.

Prepayments are carried at cost less any accumulated impairment losses.

Impairment of financial assets

Financial assets, other than those measured at fair value, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence of impairment of Financial Assets (such as the probability of insolvency or significant financial difficulties of the debtor). If there is such evidence the recoverable amount is estimated and an impairment loss is recognised in accordance with GRAP 104.

Trade receivables encompass long term debtors, consumer debtors and other debtors. A provision for impairment of trade receivables is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate.

According to GRAP 104, the assessment for impairment needs to be made for each individual financial asset separately or for groups of financial assets with similar credit risks. The

following methodology was followed to make a provision for bad debts for the year under review:

20.3.1 Consumer debtors

Consumer debtors are assessed individually thereafter collectively, considering factors such as payment histories and ratios, qualitative factors e.g. correspondence from attorneys, disputes about certain accounts, etc.

20.3.2 Other debtors

Other Debtors are reviewed individually considering payment histories and disputes about certain amounts. Provision for impairment is made accordingly.

20.3.3 Long term debtors

Housing Loans

The loans in this group are assessed by reviewing their payment histories and ratios. Provision for impairment is made accordingly.

Other Long Term Debtors

No provision for impairment is made for Other Long term Debtors, because it is envisaged that these debts will be fully recovered.

Other financial assets at amortised cost are assessed individually for impairment.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the Statement of Financial Performance.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the

previously recognised impairment loss is reversed through the Statement of Financial Performance to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

20.4 De-recognition of financial assets

The municipality derecognises Financial Assets only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity, except when Council approves the write-off of Financial Assets due to non-recoverability.

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred financial asset, the municipality continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

20.5 De-recognition of financial liabilities

The municipality derecognises Financial Liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

21. REVENUE RECOGNITION

Revenue, excluding value-added taxation where applicable, is derived from a variety of sources which include rates levied, grants from other tiers of government and revenue from trading activities and other services provided.

The municipality recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the municipality and when specific criteria have been met for each of the municipalities' activities as described below. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The municipality bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each

arrangement. Furthermore services rendered are recognised by reference to the stage of completion of the transaction at the reporting date.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, stock rotation, price protection, rebates and other similar allowances.

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

21.1 Revenue from exchange transactions

21.1.1 Service charges

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without it being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

Service charges from sewerage and sanitation are based on the type of service and the number of sewer connections on all developed property, using the tariffs approved by Council and are levied monthly.

In circumstances where services cannot readily be measured and quantified, a flat rate service charge is levied monthly on such properties.

21.1.2 Pre-paid electricity

Revenue from the sale of electricity pre-paid meter cards are recognised at the point of sale. Revenue from the sale of electricity pre-paid meter cards are recognised based on an estimate of the prepaid electricity consumed as at the reporting date.

21.1.3 Interest earned and rentals received

Interest and rentals are recognised on a time proportion basis that takes into account the effective yield on the investment. Interest may be transferred from the Accumulated Surplus to the Housing Development Fund or the Insurance Reserve.

Interest earned on the following investments is not recognized in the Statement of Financial Performance:-

- Interest earned on unutilised conditional grants is allocated directly to the creditor: unutilised conditional grants, if the grant conditions indicate that interest is payable to the funder.

21.1.4 Dividends

Dividends are recognised on the date that the municipality becomes entitled to receive the dividend in accordance with the substance of the relevant agreement, where applicable.

21.1.5 Tariff charges

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant authorised tariff. This includes the issuing of licences and permits.

21.1.6 Income from agency services

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

21.1.7 Housing rental and instalments

Finance income from the sale of housing by way of instalment sale agreements or finance leases is recognised on a time proportion basis.

21.1.8 Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- The municipality has transferred to the buyer the significant risks and rewards of ownership of the goods.
- The municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

21.2 Revenue from non-exchange transactions

21.2.1 Rates and taxes

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis with reference to the principal amount receivable and effective interest rate applicable. A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers and are deducted from revenue.

21.2.2 Fines

Fines constitute both spot fines and camera fines. Fines are recognised when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset. It is measured at the best estimate, based on past experience, of the amount of revenue the Municipality is entitled to collect.

Subsequent to initial recognition and measurement, the municipality assess the collectability of the revenue and recognises a separate impairment loss where appropriate.

21.2.3 Donations and contributions

Donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

Assets acquired in non-exchange transactions are measured at fair value in accordance with the Standards of GRAP.

21.2.4 Government grants and receipts

Unconditional grants

Equitable share allocations are recognised in revenue at the start of the financial year if no time-based restrictions exist.

Conditional grants and receipts

Conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the municipality with no future related costs are recognised in the Statement of Financial Performance in the period in which they become receivable.

Revenue is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

Interest earned on unspent grants and receipts

Interest earned on investments is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor and if it is the municipality's

interest it is recognised as interest earned in the Statement of Financial Performance in accordance with GRAP 9.

21.2.5 Revenue from recovery of unauthorised, irregular, fruitless and wasteful expenditure

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain. Such revenue is based on legislated procedures.

21.2.6 Services received in kind

Services in kind are recognised at its fair value when it is significant to the operations and/or service delivery objectives and when it is probable that the future economic benefits or service potential will flow to the entity and the fair value of the assets can be measured reliably. If the services in-kind are not significant to the operations and/or service delivery objectives and/or do not satisfy the criteria for recognition, only the nature and type of services in-kind received during the reporting period is disclosed.

21.2.7 Revenue recognition of unclaimed deposits

Unclaimed deposits older than three (3) years are recognised as revenue.

22. VALUE ADDED TAX

The Municipality is registered with SARS for VAT on the payments basis, in accordance with Section 15(2)(a) of the Value-Added Tax Act No 89 of 1991.

23. GRANTS-IN-AID

The municipality transfers money to individuals, organizations and other sectors of government from time to time. When making these transfers, the municipality does not:-

- Receive any goods or services directly in return, as would be expected in a purchase or sale transaction;

24. UNAUTHORISED EXPENDITURE

These transfers are recognized in the financial statements as expenses in the period that the events giving rise to the transfer occurred.

- Expect to be repaid in future; or
- Expect a financial return, as would be expected from an investment.

Section 1 of the Municipal Finance Management Act (MFMA), No 56 of 2003, defines "unauthorised expenditure" as follows -

- Overspending of the total amount appropriated in the municipality's approved budget;
- Overspending of the total amount appropriated for a vote in the approved budget;
- Expenditure from a vote unrelated to the department or functional area covered by the vote;
- Expenditure of money appropriated for a specific purpose, otherwise than for that specific purpose or
- Spending of an allocation referred to in paragraph (b), (c) or (d) of the definition of "allocation" otherwise than in accordance with any conditions of the allocation; or
- a grant by the municipality otherwise than in accordance with this Act;

Section 1 of the MFMA also defines a "vote" as:

- One of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and
- Which specifies the total amount that is appropriated for the purposes of the department or functional area concerned.

The Municipality uses the Government Finance Statistics (GFS) functions as well as directorates as the main groupings of segments of the Municipality's budget segments within the Municipality are grouped per directorate to facilitate greater accountability and budget implementation by the respective Executive Managers as well as per GFS classification to facilitate comparisons on a higher level.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered,

it is subsequently accounted for as revenue in the statement of financial performance. If the expenditure is not condoned by the Council it is treated as an asset until it is recovered or written off as irrecoverable.

25. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No 56 of 2003), the Municipal Systems Act (Act No 32 of 2000), and the Public Office Bearers Act (Act No 20 of 1998) or is in contravention of the Municipality's or Municipal Entities' supply chain management policies. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as an expense in the Statement of Financial Performance in the period it occurred and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the Council it is treated as an asset until it is recovered or written off as irrecoverable.

26. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance. If the expenditure is not condoned by the Council it is treated as an asset until it is recovered or written off as irrecoverable.

27. FOREIGN CURRENCIES

Transactions in foreign currencies are translated to the functional currency of the entity at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost or fair value in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in surplus or deficit.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Cash flows arising from transactions in a foreign currency are recorded in Rand's by applying, to the foreign currency amount, the exchange rate between the Rand and the foreign currency at the date of the cash flow.

28. CHANGES IN ACCOUNTING POLICIES, ESTIMATES AND ERRORS

Changes in accounting policies that are affected by management have been applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

Changes in accounting estimates are applied prospectively in accordance with GRAP 3 requirements.

Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

Details of changes in accounting policies, changes in estimates and correction of errors are disclosed in the notes to the annual financial statements where applicable.

29. RELATED PARTIES

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Management is regarded as a related party and comprises the councillors, Executive Mayor, Mayoral Committee members, Municipal Manager, executive directors and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

30. EVENTS AFTER THE REPORTING DATE

Events after the reporting date that are classified as adjusting events have been accounted for in the Annual Financial Statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the Annual Financial Statements.

31. CONTINGENT ASSETS AND CONTINGENT LIABILITIES

Contingent liabilities represent a possible obligation that arises from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent liability can also arise as a result of a present obligation that arises from past events but which is not recognised as a liability either because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in the notes to the annual financial statements.

1. KEY JUDGEMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

In the application of the municipality's accounting policies, which are described above, management is required to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. The estimates and associated assumptions are based on historical experience and other factors that are considered to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

These estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements

The following are the critical judgements, apart from those involving estimations, that the management have made in the process of applying the municipality's Accounting Policies and that have the most significant effect on the amounts recognised in Annual Financial Statements:

• Lease classification – Municipality as lessor

Municipality has entered into commercial property leases on its investment property portfolio. The Municipality has determined that it retains all the significant risks and rewards of ownership of these properties, and so accounts for them as operating leases.

• Lease classification – Municipality as lessee

The Municipality has entered into a number of leases for office equipment. In determining whether a lease agreement is a finance lease or an operating lease requires judgement as to whether the agreement transfers substantially all the risks and rewards of ownership to the Municipality.

Judgement is required on various aspects that include, but are not limited to, the fair value of the leased asset, the economic life of the leased asset, whether or not to include renewal options in the lease term, and determining an appropriate discount rate to calculate the present value of

the minimum lease payments. The Municipality has exercised its judgement on the appropriate classification of equipment leases, and has determined a number of lease arrangements are finance leases.

Classification of Property as held for strategic purposes.

The Municipality classifies vacant land that is earmarked for future development in terms of the Municipality's Spatial development framework, as Property, plant and Equipment, rather than Investment Property.

Criteria for the classification of properties as Investment property rather than Property, plant and equipment, when classification is difficult are as follows:

All properties held to earn market-related rentals or for capital appreciation or both and that are not for administrative purposes and that will not be sold in the ordinary course of operations are classified as Investment Properties.

Land held for currently undetermined future use.

Leases properties that are held to provide a social (community) service or that are necessary for employees to perform their job functions, but which also generates rental revenue are not seen as Investment Properties. The rental revenue generated is incidental to the purposes for which the property is held.

Determination of Repairs and Maintenance costs

Repairs and Maintenance is based on Management's own judgement of costs incurred in cost centres responsible for the maintenance and repair of Municipal owned assets. This includes internal charges (inter departmental charges) such as internal transport costs, charged out to the different departments.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Pension and other post-employment benefits

The cost of defined benefit pension plans and other employment medical benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

Classification of financial assets and liabilities

The classification of financial assets and liabilities, into categories, is based on judgement by management. The Accounting Policy on Financial Instruments describes the factors and criteria considered by the management of the municipality in the classification of financial assets and liabilities.

In making the above-mentioned judgement, management considered the definition and recognition criteria for the classification of financial instruments as set out in GRAP 104: Financial Instruments.

Impairment of financial assets

The Accounting Policy on Financial Instruments describes the process followed to determine the value by which financial assets should be impaired. In making the estimation of the impairment, the management of the municipality considers the detailed criteria of impairment of financial assets as set out in GRAP 104: Financial Instruments and used its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of the reporting period. The management of the municipality is satisfied that the impairment of financial assets recorded during the year is appropriate.

The calculation in respect of the impairment of service debtors (receivables from exchange and non-exchange transactions) is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

The calculation in respect of the impairment of fine receivables (receivables from non-exchange transactions) is based on an assessment of the past payment history of fines per category.

Valuation of Financial Assets at Fair Value

Where the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, their fair value is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, judgement is required in establishing fair values. Judgement includes the consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Review of useful lives of property, plant and equipment and intangible assets

The useful lives of assets are based on management's estimation. Management considers whether there is any indication that expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. These include changes in the composition, condition and nature of the asset, its susceptibility to changes in technology and processes, the nature of the processes and environment in which the asset is deployed, availability of funding to replace the asset and changes in the market in relation to the asset, as well as planned repairs and maintenance including refurbishments.

Valuation of Land and buildings and fair value estimations of Investment Property

Land and buildings were valued and the fair value of Investment property determined, by reference to market-based evidence, using comparable prices adjusted for specific market factors such as nature, location and condition of the property.

Impairment of property plant and equipment, intangible assets, heritage assets and inventory

The Accounting Policies on Impairment of Cash and Non-cash generating assets as well as Inventory describes the conditions under which non-financial assets are tested for potential impairment losses by the management of the municipality. Significant estimates and judgements are made relating to the impairment of Property, Plant and Equipment, Intangible Assets and Heritage Assets and the write down of Inventories to the lowest of Cost and Net Realisable Values (NRV).

In making the above-mentioned estimates and judgement, management considers the subsequent measurement criteria and indicators of potential impairment losses as set out in GRAP 21: Impairment of Cash generating Assets and GRAP 26: Impairment of non-Cash generating Assets.

Provisions and contingent liabilities

Management judgement is required when recognising and measuring provisions, and when measuring contingent liabilities. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value where the effect is material.

Assumptions were used in determining the provision for rehabilitation of landfill sites. Provision is made for the estimated cost to be incurred on the long-term environmental obligations, comprising expenditure on pollution control and closure over the estimated life of the landfill. The provision is based on the advice and judgement of qualified engineers. The estimates are discounted at a pre-

tax discount rate that reflect current market assessments of the time value of money. The increase in the rehabilitation provision due to passage of time is recognized as finance cost in the statement of financial performance.

Revenue recognition

The Accounting Policies on Revenue from Exchange Transactions and Revenue from Non-exchange Transactions describes the conditions under which revenue will be recorded by the management of the municipality. In making their judgement, the management considered the detailed criteria for the recognition of revenue as set out in GRAP 9: Revenue from Exchange Transactions and GRAP 23: Revenue from Non-exchange Transactions.

In particular: in regards to revenue from exchange revenue - when goods are sold, whether the municipality had transferred to the buyer the significant risks and rewards of ownership of the goods; and, when services is rendered, whether the service has been rendered.

Also of importance is the estimation process involved in initially measuring revenue at the fair value thereof. In regards to revenue from non-exchange transactions - significant estimations were made to the initial recognition and measurement of revenue on fines, on the estimated reductions on initial recognition and measurement. Based on past experience, of the amount of revenue the Municipality is entitled to collect was calculated as 97.6% of the value of the fines issued, whereas it was estimated that 79.0% of the value of the fines issued were impaired. The management of the municipality is satisfied that recognition of the revenue in the current year is appropriate.

Budget Information

Management assumes deviations between budget and actual amounts to be material when a deviation of more than 10% exists. All material differences are explained in the notes to the annual financial statements.

2. HOUSING DEVELOPMENT FUND

Realised Housing Proceeds	
Balance at beginning of the year	16,968,574
Plus : Interest & Redemption & Other on Housing Schemes	5,686,853
Plus : (Net Loss) / Surplus on letting schemes	(293,933)
Less : Housing Subsidies Expenditure	(725,080)
Balance at the end of the year	21,636,414
Unrealised Housing Proceeds	
Balance at beginning of the year	3,175,550
Long term Housing Loans	(709,705)
Balance at the end of the year	2,465,845
TOTAL	
	24,102,259
	20,144,124

3. RESERVES AND FUNDS

Re-valuation Reserve	
1,287,644,331	1,287,644,331
1,320,315,451	1,320,315,451

The Revaluation Reserve arises on the revaluation of Land and Buildings. Where revalued Land or Buildings are sold, the portion of the Revaluation Reserve that relates to that asset, and is effectively realised, is transferred directly to Accumulated Surplus.

Distributions from the Revaluation Reserve can be made when it is in accordance with the requirements of the municipality's accounting policy. The payment of cash distributions out of the reserve is restricted by the terms of the municipality's accounting policy. These restrictions do not apply to any amounts transferred to the Accumulated Surplus. Council do not currently intend to make any distribution from the Revaluation Reserve.

Refer to Statement of Changes in Net Assets for more detail and the movement on Reserves.

4. ACCUMULATED SURPLUS / (DEFICIT)

Total Accumulated Surplus	
2,558,116,650	2,445,991,116

Refer to Statement of Changes in Net Assets for more detail and the movement on Accumulated Surplus.

Accumulated surplus has been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

5. BORROWINGS

Annuity Loans	
1,190,488,364	902,837,333
3,989,231	3,062,385
Finance Leases	
Sub-total	1,194,477,595
Less : Current portion transferred to current liabilities	(162,764,263)
Annuity Loans	(160,839,692)
Finance Leases	(1,824,571)
Total Borrowings	
1,031,713,331	770,530,304
1,029,648,672	768,548,875
2,064,660	1,981,429

5.1 Summary of Arrangements

Annuity Loans are repaid over periods varying from 3 to 10 (2015/16: 3 to 10) years and at interest rates varying from 6.75% to 12.65% (2015/16: 6.75% to 12.65%) per annum. Annuity Loans are not secured.

The fair value of borrowings was determined after considering the standard terms and conditions of agreements entered into between the municipality and the relevant financing institutions.

Refer to Appendix "A" for more detail on borrowings.

5.2 Obligations under Finance Leases

The Municipality as Lessee:

Finance Leases relate to Equipment with lease terms not more than 3 years.

The obligations under Finance Leases are as follow:

Minimum lease payments payable

Payable within one year	2,313,302	1,391,518
Payable within two to five years	2,243,123	2,186,946
Payable after five years	0	0
Total minimum lease payments		4,556,425
Future finance charges	567,194	516,079
Present value of minimum lease payments		3,989,231
	3,062,385	3,062,385

Present value of minimum lease payments	1,924,571	3,989,231
Payable within one year	2,064,660	3,062,385
Payable within two to five years	1,981,429	0
Payable after five years	0	0
Present value of lease obligations	4,046,089	3,062,385

Finance leases were entered into for certain photocopy machines during 2015/16 and 2016/17. The period of the leases are 36 months. Interest rates are fixed at the inception of the agreements. No arrangements have been entered into for contingent rental payments. The minimum lease payments equals the fair value of the equipment.

6. DEFINED BENEFIT OBLIGATION

Post Employment Health Care Benefits	114,913,000	126,078,000
Ex-Gratia Pension Benefits	2,591,000	3,369,000
Less: Transfer to Current Obligations	(7,144,000)	(7,469,000)
Post Employment Health Care Benefits	(6,935,000)	(7,222,000)
Ex-Gratia Pension Benefits	(209,000)	(247,000)
Non-Current defined Benefit Plan Obligation	110,360,000	121,878,000

6.1 Post Employment Health Care Benefits

The municipality provides certain post-retirement medical benefits by funding the medical aid contributions of qualifying retired members of the municipality. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current conditions of service) is entitled to remain a continued member of such medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. The municipality operates an unfunded defined benefit plan for these qualifying employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2017 by Mr Niel Fourie and Mr Julian van der Spuy of ZAQEN Actuaries Pty (Ltd). The present value of the defined benefit obligation, and the related current service cost, were measured using the Projected Unit Credit Method.

The Post Employment Health Care Benefit Plan is a defined benefit plan, of which the members are made up as follow:

In-service Members (Employees)	578	594
Continuation Members (Retirees)	194	212
Total Members	772	806

The liability in respect of past service has been estimated as follow:

In-service Members	47,966,000	53,865,000
Continuation Members	66,947,000	72,213,000
Total Liability	114,913,000	126,078,000

The municipality makes monthly contributions for health care arrangements to the following Medical Aid Schemes:

- Bonitas
- Hosmed
- Key Health
- LA Health
- Samwumbe

The Future-service Cost for the ensuing year is estimated to be R 3,440,000 whereas the Interest Cost for the year after is estimated to be R 11,540,000

The principal assumptions used for the purposes of the actuarial valuations were as follows:

i) Rates of Interest	Yield curve
Discount Rate	Difference between
CPI (Consumer Price Inflation)	nominal and yield
Health Care Cost Inflation Rate	CPI+1%
Net Effective Discount Rate	Yield curve based
	CPI+1%
	Yield curve based

GRAP 26 defines the determination of the Discount rate assumption to be used as follows:
"The discount rate that reflects the time value of money is best approximated by reference to market yields at the reporting date on government bonds. Where there is no deep market in government bonds with a sufficiently long maturity to match the estimated maturity of all the benefit payments, an entity uses current market rates of the appropriate term to discount shorter term payments, and estimates the discount rate for longer maturities by extrapolating current market rates along the yield curve."

The Actuarial assumptions used the nominal and real zero curves as at 30 June 2017 supplied by the JSE to determine the discount rates and CPI assumptions at each relevant time period. In the event that the valuation is performed prior to the effective valuation date, they used the prevailing yield at the time of performing their calculations. The methodology was changed from a point estimate to that of a curve in order to present a more accurate depiction of the liability. Previously only one discount rate was used to value all the liabilities. This changed methodology would be seen as a change in estimate basis.

ii) Mortality rates
Mortality before retirement has been based on the SA 85-90 mortality tables. These are the most commonly used tables in the industry. Mortality post-retirement (for pensioners) has been based on the PA (90) ultimate mortality tables. No explicit assumption was made about additional mortality or health care costs due to AIDS.

iii) Normal retirement age
The average retirement age for all active employees was assumed to be 63 years. This assumption implicitly allows for ill-health and early retirements. The normal retirement age (NRA) for all active employees was assumed to be 65 years.

The amounts recognised in the Statement of Financial Position are as follows:

Fair value of plan assets	0
Unrecognised Actuarial Gains / (Losses)	0
Present value of unfunded obligations	114,913,000
Total Benefit Liability	114,913,000
	126,078,000

The amounts recognised in the Statement of Financial Performance are as follows:

Current service cost	3,092,000
Interest cost	12,325,000
Actuarial losses / (gains) recognised	(18,133,730)
	(2,716,730)
	6,016,127

Total Post-retirement Benefit included in Employee Related Costs (Note 30)

Movements in the present value of the Defined Benefit Obligation were as follows:

Balance at the beginning of the year	126,078,000
Service costs	3,092,000
Interest cost	11,500,000
Benefits paid	(7,631,127)
Actuarial losses / (gains) recognised	(8,448,270)
Present Value of Fund Obligation at the end of the year	114,913,000
	126,078,000

Movements in the present value of the Defined Benefit Assets were as follows:

Balance at the beginning of the year	0
Contributions from the employer	8,448,270
Benefits paid	(8,448,270)
Balance at the end of the year	0

The history of experienced adjustments are as follows:

2017	2016	2015	2014	2013
R	R	R	R	R
114,913,000	126,078,000	127,693,000	117,522,000	111,610,119
0	0	0	0	0
114,913,000	126,078,000	127,693,000	117,522,000	111,610,119
0	0	0	0	0
0	0	0	0	0

Experienced adjustments on Plan

Deficit

Fair Value of Plan Assets

Present Value of Defined Benefit

The effect of a 1% movement in the assumed rate of health care cost inflation is as follows:

	-1% Decrease	-1% Increase
Effect on the defined benefit obligation	11,249,000	11,763,000
Effect on the aggregate of the interest cost	11,249,000	11,763,000
Effect on the aggregate of the current service cost	3,350,000	3,502,000
Total accrued liability	25,848,000	27,028,000
The effect of a 20% movement in the assumed mortality rates are as follows on the ensuing years assumptions:		
Total accrued liability	122,839,000	108,224,000
Effect on the aggregate of the interest cost	12,358,000	10,848,000
Effect on the aggregate of the current service cost	3,658,000	3,248,000
-20% Mortality Rate	138,855,000	122,320,000
+20% Mortality Rate	138,855,000	122,320,000

Refer to Note 49 "Retirement Benefit Information" to the Annual Financial Statements for more information regarding the municipality's other retirement funds that is Provincially and Nationally administered.

6.2 Ex-Gratia Pension Benefits

The Municipality provides pension and retirement gratuity benefits to certain employees who were in the employment of the former Paarl and Wellington Municipalities (now incorporated into the Drakenstein Municipality) at 31 December 1994 (Paarl) and 31 March 1995 (Wellington) and still in the employment of Drakenstein Municipality at date of normal retirement, medical disability, re-employment or death. The gratuity is calculated on the salary benefits during 1994/1995.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2017 by Mr Niel Fourie and Mr Julian van der Spuy of ZAQEN Actuaries Pty (Ltd). The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

The Ex-Gratia Pension Benefit Plan is a defined benefit plan, of which the members are made up as follows:

	2016	2017
In-service Members (Employees)	215	230
Continuation Members (Retirees)	15	20
Total Members	230	250

The liability in respect of past service has been estimated as follows:

	2016	2017
In-service Members	0	0
Continuation Members	2,591,000	2,591,000
Total Liability	2,591,000	2,591,000
Lump Sum Benefit	1,544,000	1,797,000
Pension Benefit	1,047,000	1,572,000
Total	2,591,000	3,369,000

The interest-cost for the next year is estimated to be R 224,000. Actuaries are of opinion that future service cost need not be determined for pension fund liability as all benefits vests immediately.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Discount Rate	8.74%
Consumer Price Inflation (CPI)	6.18%
Pension increase rate - pensioners	7.18%
Net Effective Discount Rate	1.46%
Lump sum valuation	8.49%
	6.69%
	7.69%
	0.74%

Discount Rate	9.36%
Consumer Price Inflation (CPI)	6.86%
Pension increase rate - pensioners	7.86%
Net Effective Discount Rate	1.39%
Pensioner Valuation	8.36%
	6.86%
	7.68%
	0.85%

In accordance with GRAP 25 the discount rate was determined using the implied duration of the liability to obtain an appropriate interest rate on the yield curve. The nominal and real zero curves as at 30 June 2017 supplied by the JSE was used to determine the discounted rates and CPI assumptions.

ii) Mortality rates
Mortality before retirement has been based on the PA (90) mortality tables. These are the most commonly used tables in the industry. It was assumed that female spouses would be five years younger than their male spouses and vice versa.

Restated

R

(iii) Normal retirement age
The average retirement age for all active employees was assumed to be 63 years. This assumption implicitly allows for ill-health and early retirements. The normal retirement age (NRA) for all active employees was assumed to be 65 years.

The amounts recognised in the Statement of Financial Position are as follows:

Total Benefit Liability		
Present value of unfunded obligations	0	0
Unrecognised Actuarial Gains / (Losses)	0	0
Fair value of plan assets		

The amounts recognised in the Statement of Financial Performance are as follows:

Total Post-retirement Benefit included in Employee Related Costs (Note 30)		
Actuarial losses / (gains) recognised	0	0
Interest cost	326,000	326,000
Current service cost	(610,260)	(689,900)
	275,000	(363,900)

Movements in the present value of the Defined Benefit Obligation were as follows:

Balance at the beginning of the year	2016	2015
Service costs	3,369,000	3,369,000
Interest cost	0	0
Benefits paid	275,000	326,000
Actuarial losses / (gains) recognised	(167,740)	(885,260)
Present Value of Fund Obligation at the end of the year	2,591,000	3,369,000

Movements in the present value of the Defined Benefit Assets were as follows:

Contributions from the employer	0	0
Benefits paid	(167,740)	(167,740)
Balance at the end of the year	231,100	(231,100)
	0	0

The history of experienced adjustments is as follows:

Present Value of Defined Benefit	2017	2016	2015	2014	2013
Fair Value of Plan Assets	2,591,000	3,369,000	3,964,000	4,978,000	5,602,123
Deficit	0	0	0	0	0
Experienced adjustments on Plan	2,591,000	3,369,000	3,964,000	4,978,000	5,602,123

The effect of a 1% movement in the assumed rate of pension increase inflation is as follows:

Effect on the interest cost	1% Decrease	1% Increase
Effect on the defined benefit obligation	2,532,000	2,657,000
	218,000	230,000

The municipality expects to make a contribution of R 209,000 to the Defined Benefit Plan during the next financial year.
Refer to Note 49 "Retirement Benefit Information" to the Annual Financial Statements for more information regarding the municipality's other retirement funds that is Provincially and Nationally administered.

7. PROVISIONS

Balance of Current Provisions at end of year
Balance of Non-current Provisions at end of year
Balance of Provisions at end of year

7.1 Provision for rehabilitation are reconciled as follows:

The movement in Non-current Provisions are reconciled as follows:

Landfill site		
Balance at beginning of year	130,113,333	150,981,665
Change in estimate	21,751,020	(882,687)
Rehabilitation expenditure during the year	150,981,665	144,183,096
Balance of landfill site at end of year	130,113,333	150,981,665
Balance of Current Provisions for Rehabilitation at end of year	130,113,333	150,981,665
Balance of Non-current Provisions for Rehabilitation at end of year	24,167,282	126,814,383
Balance of Provisions for Rehabilitation at end of year	154,280,615	307,866,048

The council will incur further rehabilitation cost on its seven unrehabilitated dumping/landfill sites over the period 2017/18 up to 2020/21. Provision has been made for the net present value of this cost based on the status quo as at 30 June 2017. Future interventions such as the proposed management of the Wellington Landfill site or the Waste to Energy programme (refer to Note 47) may in future adjust the date and cost of rehabilitation.

Proposed rehabilitation

2020/2021	28,826,576
2017/2018	20,074,999
2017/2018	2,401,230
2018/2019	5,458,113
2019/2020	4,359,471
2018/2019	13,428,156
2018/2019	11,402,473
2018/2019	12,529,929
2018/2019	23,139,927
2018/2019	43,023,093
2018/2019	150,981,665

2017

Restated
2016

JG Afrika is a consulting engineering and environmental consulting firm appointed to determine a high-level concept-design stage costing-value (amount) to cap and rehabilitate the landfill sites at the end of the current Financial Year. Their independence from management is monitored. The firm is a member and fully subscribes to the Constitution and code of conduct of the Council of Engineers of South Africa.

Based on the work provided by JG Afrika, an applicable inflation rate of 5.5% to 6.4% has been determined and a discounted rate of 5.88% has been utilised.

The funding required by the municipality to fund the rehabilitation has been assessed and based on the cost of, loss of revenue from investments per the rates as disclosed in note 48.6. The municipality assessed the effect of discounting coupled with the future inflation rate to approximate the current cost of the expected rehabilitation cost as disclosed above.

7.2 Provision for long service awards

34,108,000	34,257,000
(2,846,000)	(3,077,000)
31,262,000	31,180,000

The municipality operates a funded defined benefit plan for all its employees. Under the plan, a long-service award is payable after 10 years of continuous service and every 5 years thereafter to employees. The provision is an estimate of the long-service based on historical staff turnover. No other long-service benefits are provided to employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2017 by Mr Niel Fourie and Mr Julian van der Spuy of ZAQEN Actuaries Pty (Ltd). The present value of the defined benefit obligation, and the related current service cost, were measured using the Projected Unit Credit Method.

At year end, 1,682 employees were eligible for Long-services Awards.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Yield curve	Yield curve based
Yield curve	CPI+1%
Yield curve	nominal and yield
Yield curve	Difference between
Yield curve	Difference between
Yield curve	nominal and yield
Yield curve	CPI+1%
Yield curve	Yield curve based

GRAP 25 defines the determination of the Discount rate assumption to be used as follows:

"The discount rate that reflects the time value of money is best approximated by reference to market yields at the reporting date on government bonds. Where there is no deep market in government bonds with a sufficiently long maturity to match the estimated maturity of all the benefit payments, an entity uses current market rates of the appropriate term to discount shorter term payments, and estimates the discount rate for longer maturities by extrapolating current market rates along the yield curve."

The Actuaries used the nominal and real zero curves as at 30 June 2017 supplied by the JSE to determine the discount rates and CPI assumptions at each relevant time period. In the event that the valuation is performed prior to the effective valuation date, they used the prevailing yield at the time of performing their calculations. The methodology was changed from a point estimate to that of a curve in order to present a more accurate depiction of the liability. Previously only one discount rate was used to value all the liabilities. This changed methodology would be seen as a change in estimate basis.

The amounts recognised in the Statement of Financial Position are as follows:

Fair value of plan assets
Present value of unfunded obligations

Total Benefit Provision

The amounts recognised in the Statement of Financial Performance are as follows:

Current service cost

Interest cost

Past service cost

Actuarial Losses / (gains) recognised

Total expense included in Employee Related Costs (Note 30)

34,108,000	34,108,000
34,257,000	34,257,000
0	0
2,454,000	3,382,000
0	0
(2,858,656)	2,877,344
5,325,124	5,325,124

Movements in the present value of the Defined Benefit Obligation were as follows:

	2017	Restated 2016
Balance at the beginning of the year	34,257,000	31,925,000
Current service costs	2,454,000	2,341,000
Interest cost	3,382,000	2,916,000
Benefits paid	(2,958,656)	(2,916,000)
Actuarial Losses / (gains) recognised	(3,026,344)	(2,993,124)
Balance at the end of the year	34,108,000	34,257,000
Total Current Provisions at end of the year	34,108,000	34,257,000
Total Non-current Provisions at end of the year	2,846,000	3,077,000
Total Provisions at the end of the year	31,262,000	31,180,000

Movements in the present value of the Defined Benefit Assets were as follows:

	2017	Restated 2016
Balance at the beginning of the year	3,026,344	2,993,124
Contributions from the employer	0	0
Benefits paid	3,026,344	2,993,124
Balance at the end of the year	(3,026,344)	(2,993,124)
1% Decrease	0	0
1% Increase	31,701,000	38,788,000
	2,256,000	2,696,000
	3,215,000	3,756,000

The effect of a 1% movement in the withdrawal rates are as follows on the ensuing years assumptions:

Effect on the defined benefit obligation	35,890,000	-20% Withdrawal rate
Effect on the aggregate of the interest cost	2,666,000	
Effect on the aggregate of the current service cost	3,663,000	
	3,299,000	

The municipality expects to make a contribution of R 2,846,000 to the defined benefit plan during the next financial year.

The Future-service Cost for the ensuing year is estimated to be R 2,462,000 whereas the interest Cost for the year after is estimated to be R 3,471,000.

7.3 Provision for bonuses

Provision for bonuses are reconciled as follows:

The movement in Provisions are reconciled as follows:

	2017	Restated 2016
Provision for bonuses	12,052,180	11,148,735
Balance at beginning of year	879,923	903,445
Net movement	12,052,180	12,052,180
Balance at the end of the year	12,932,103	12,052,180

Balance of Current Provisions for Bonuses at beginning of year

Balance of Current Provisions for Bonuses at end of year

Service bonuses are granted to municipal employees as a 13th cheque. An estimate amount for the provision raised is determined according to the amount accruing to employees up to June from their previous bonus payment.

7.4 Provision for performance bonuses

Provision has been made for performance bonuses in accordance with the performance agreements with each Executive Manager and the Municipal Manager using the best estimate of the potential performance bonus payable. The actual bonuses will only be paid once the evaluation committee appointed in terms of the Performance Management Regulations has reviewed the performance agreements of the Executive Manager team and made a recommendation to the Council for final approval. This process will be performed once the draft annual report for the 2016/17 year has been submitted to Council in January 2018. The performance bonuses have been provided as follows:

Executive Management Team
JF Mettler (Municipal Manager)
JH Leibbrandt (Municipal Manager)
J Carstens (Acting Municipal Manager)
J Carstens (Chief Financial Officer)
CE Latagan (Acting CFO)
GBF Boshoff (Executive Manager Social Services)
AME De Beer (Executive Manager Corporate Services)
S Johaar (Executive Manager Corporate Services)
J Louw (Executive Manager Infrastructure)
D Hattingh (Executive Manager Infrastructure)
AM Adam (Executive Manager Planning and Economic Development)
D Smit (Acting Executive Manager Planning and Economic Development)
L Waring (Executive Manager Planning and Economic Development)

The movement in Provisions are reconciled as follows:	
Provision for performance bonuses	1,078,593
Balance at beginning of year	1,176,700
Bonuses paid	1,078,593
Increase in provision	931,692
Balance at the end of the year	(760,004)
Balance of Current Provisions for performance bonuses at beginning of year	1,250,281
Balance of Current Provisions for performance bonuses at end of year	1,078,593
Included in the balance of the provision is an amount of R152,357 pertaining to the 2015/16 performance evaluation that has not yet been paid to Ms AME De Beer as at 30 June 2017.	

7.5 Provision for legal fees	
Provision for legal fees are reconciled as follows:	
The movement in Provisions are reconciled as follows:	
Provision for legal fees	0
Balance at beginning of year	0
Increase in provision	483,613
Settlement of provision	0
Reversal of provision	0
Balance at the end of the year	0
Balance of Current Provisions for legal fees at beginning of year	0
Balance of Current Provisions for legal fees at end of year	0
The provision in the prior year related to an application that was lodged to set aside the tender award for the development of the Paarl Waterfront by the Paarl Waterfront Development Company and the Drakenstein Heritage Foundation & Others during November 2013. A provision was made for the estimated legal fees of R483 613. During the 1516 year, the claim was settled.	

8. CONSUMER DEPOSITS

Electricity and Water
Guarantees held in lieu of Electricity and Water Deposits
Consumer Deposits are paid by consumers on application for new water and electricity connections. The deposits are repaid when the water and electricity connections are terminated. In cases where consumers default on their accounts, the municipality can utilise the deposit as payment for the outstanding account.
No interest is paid on Consumer Deposits held.
The management of the municipality is of the opinion that the carrying value of Consumer Deposits approximates their fair values.
The fair value of Consumer Deposits was determined after considering the standard terms and conditions of agreements entered into between the municipality and its consumers.
Consumer deposits has been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

37,806,852	33,951,535
------------	------------

9. TRADE AND OTHER PAYABLES FROM EXCHANGE TRANSACTIONS

The average credit period on purchases is 30 days from the receipt of the statement, as determined by the MFMA. No interest is charged for the first 30 days from the date of receipt of the invoice. Thereafter interest is charged in accordance with the credit policies of the various individual creditors that the municipality deals with. The municipality has financial risk policies in place to ensure that all payables are paid within the credit time frame.
The management of the municipality is of the opinion that the carrying value of Creditors approximates their fair values.
The fair value of Creditors was determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties.
The total liability in respect of leave amounts to R 29,082,946 (2016: R 25,648,330) as at 30 June 2017, the full amount is provided for.
Payables from exchange transactions has been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

112,968,487	252,471,509
29,082,946	105,344,572
25,648,330	89,169
98,052,817	87,936,668
	23,650,674
	225,297,003

10. UNSPENT CONDITIONAL GRANTS AND RECEIPTS

Conditional Grants from other spheres of Government
National Government (Unconditional Grants)
National Government (Other)
National Government (Conditional Grants)
Provincial Government (Conditional Grants)
Guarantees and Donations (Unconditional)

Total Conditional Grants and Receipts

These amounts are separately invested in terms of section 12 of the MFMA. Refer note 28 for more detail of grants from National and Provincial Government.

Refer to Appendix "C" for more detail on Conditional Grants.

Unspent Conditional Grants and Receipts has been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

11. PROPERTY, PLANT AND EQUIPMENT

Property, Plant and Equipment has been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

11.1 Land and Buildings carried at Fair Value:

Land and Buildings were revalued to fair value during the 2013/14 financial period. The effective date of revaluation was 30 June 2014 and the valuation was performed by registered and independent valuers.

11.2 Assets pledged as security:

No assets have been pledged as security.

11.3 Impairment of Property, Plant and Equipment:

The municipality assessed its items of Property, Plant and Equipment, Intangible assets, Investment property and Heritage assets for any potential impairment losses on assets.

The following impairment losses were recognised during the year (2016: RNil):

Other Assets: Vehicles

Total impairment losses recognised

48,796	48,796
0	0

No material impairment losses were recognised related to a single asset during the financial year.

Impairment losses on the abovementioned assets exist predominantly due to the assets being damaged beyond repair.

11.4 Change in Estimate - Useful Life of Property, Plant and Equipment reviewed:

A review of the useful lives and residual values of items of Property, Plant and Equipment has been performed. The change in the estimated useful life of various assets of the municipality has resulted in a decrease in depreciation. The change (2016: R667,613).

The change in estimate is expected to have an effect in future periods. It is however considered impracticable to estimate these effects, due to the fact that, while an assessment at each reporting date is made, indicators and the specific assets affected thereby cannot be estimated for future periods.

11.5 Property, plant and equipment in the process of being constructed or developed:

No projects were identified where construction or development has been halted, or that is taking a significantly longer period of time to complete than expected.

11.6 Repairs and maintenance

Repairs and maintenance per detail asset category and expenditure classifications was as follow:

Asset Category	Contracted	Employee	Related Cost	Inventory	Operating Leases	Operational Cost	Grand Total
Buildings, Structures and Facilities	49,870,549	7,752,124	73,566,643	1,930,487	1,342,611	24,150,481	147,689,775

Heritage Assets	65,124	0	0	0	0	65,124

15. NON-CURRENT INVESTMENTS

Listed	136,462	132,990
Eskom stock at fair value	257,013	0
SANLAM shares	132,990	132,990
Total listed investments	393,475	132,990

Unlisted	319,390,807	276,777,737
Bank Deposits	319,390,807	276,777,737
Other Short-term Investments	319,390,807	276,777,737
Total unlisted investments	319,390,807	276,777,737

The fair value of the listed investments is estimated at R 132,990 (2016: R 393,475). Fair value of Eskom stock is determined based on discounted cash flow analysis, at a discounted rate of 8.5450%, (2016 : 8.7250%).

Total	319,784,282	276,910,727
Less: current portion maturing within next twelve months - refer note 21	(319,390,807)	(276,777,737)
Total (non-current)	393,475	132,990

Listed Shares are investments with a maturity period of more than 12 months and earn fixed interest rates of 13.5% per annum.

The fair value of investments was determined after considering the standard terms and conditions of agreements entered into between the municipality and financial institutions.

16. RECEIVABLES FROM EXCHANGE TRANSACTIONS

As at 30 June 2017	Gross Balances	Impairment Provision	Net Balances
Public organisations	77,834	0	77,834

Total Receivables from Exchange Transactions	2,167,195	0	2,167,195
As at 30 June 2016	Gross Balances	Impairment Provision	Net Balances
Public organisations	77,834	0	77,834
Housing selling scheme loans	3,187,301	(111,266)	3,076,036
Less: Current Portion transferred to Current Receivables:-	3,265,135	(111,266)	3,153,870
Public organisations	349,809	0	349,809
Housing selling scheme loans	349,809	0	349,809
Total Receivables from Exchange Transactions	2,803,961	0	2,803,961

Loans to public organisations are granted in terms of the National Housing Policy. The applicable interest rate and loan repayment periods are determined by the National Minister of Housing. At present these loans attract interest at 1% (buildings) and 1% (infrastructure) and are repayable over 30 years.

Housing selling scheme loans are granted to qualifying individuals in terms of the National Housing Policy. These loans attract interest, as determined by the National Minister of Housing, currently 13.5% per annum and are repayable over 20 years.

DRAKENSTEIN MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2017

16.1 Reconciliation of the Provision for Impairment

In determining the recoverability of a Long-term Receivable, the municipality considers any change in the credit quality of the receivable from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the management believe that there is no further credit provision required in excess of the Provision for Impairment.

17. INVENTORY

Balance at beginning of year	2017	2016
Net movement	111,266	2,836,381
Balance at end of year	128,207	111,266

Consumable stores
Maintenance materials
Water
Spare parts for Plant & Equipment
Plants held for resale
Inventory BNG Houses
Less: Inventory held as spare parts for infrastructure assets
Total Inventory
No inventories were pledged as security for liabilities.
During the year inventory to the amount of R 101,396 (2016: R 54,497) was written off due to discrepancies identified during the annual stock count.
Inventories of R 6,429,456 (2016: R 5,223,334) are held as major spare parts for infrastructure assets and has been transferred to Property, Plant and Equipment.
At year end there were BNG houses to the value of R3,364,000 completed or still in process of construction. Although these houses are entirely funded by the National Department of Human Settlements, through the Western Cape Department of Human Settlements, the Municipality is regarded as a principal in terms of the current GRAP interpretation and is therefore obliged to disclose any BNG in the process of construction as well as completed houses still under the control of the Municipality as inventory up to the point of hand over to the allocated beneficiary where after the cost is expensed through the Statement of Financial Performance.

VAT Receivable	38,941,816	0
VAT Payable (Control)	17,606,929	(222,482)

Net VAT receivable. Only once payment is received from debtors is VAT paid over to SARS.

No interest is payable to SARS if the VAT is paid over timeously, but interest for late payments is charged according to the VAT Act. The municipality has financial risk policies in place to ensure that payments are affected before the due date.

Value Added Tax has been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

General Valuations on land and buildings are performed every four years. The last general valuation came into effect on 1 July 2013. Supplementary valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions.

A uniform rate for the same class and type of property was applied with the implementation of the Property Rates Act. A rate on different categories was applied to property valuations to determine assessment rates. Rebates of 50% are applied to pensioners. A discount of 20% was granted to the state institutions.

Rates are levied monthly on property owners and are payable the 15th of each month for monthly rate payers of Drakenstein areas and 30th September for annual payers. Interest is levied at the prime rate on outstanding rates amounts.

Property rates have been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

22. SERVICE CHARGES

The amounts disclosed above for revenue from Service Charges are in respect of services rendered which are billed to the consumers on a monthly basis according to approved tariffs.

Service charges have been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

(iv) Detail of individual items adjusted

a) Stale cheques
During the year all cheques older than 6 months have been reversed.

(Increase) / decrease in Accumulated Surplus / (deficit) (Opening Balance 1 July 2015)
Decrease / (Increase) in Trade and other payables from exchange transactions (Opening Balance 1 July 2015)

b) Payments relating to previous financial book year
Old book year payment made during the current financial year, but was applicable in the prior financial period. It was corrected accordingly.

(Increase) / decrease in Trade and other payables from exchange transactions
Trade creditors

Increase / (decrease) in Expenditure
Bulk Purchases : Water
Contracted Services
Operational Cost
Inventory
Transfers and Subsidies : Operational Expenditure
Operating Leases

Increase / (Decrease) in VAT receivable
VAT Control

c) Prepaid electricity commission
During the year it was discovered that prepaid electricity was incorrectly accounted for. The error was subsequently corrected.

(Increase) / decrease in Service charges
Sale of electricity
(Increase) / decrease in Trade and other payables from exchange transactions
Other creditors

Increase / (Decrease) in Trade and other receivables from exchange transactions
Recoverable debtors

d) Lease liability correction
During 2015/16 it was discovered that a lease was calculated on 10 years, while it should have been 9 years and 11 months. The error was subsequently corrected.

(Increase) / decrease in Accumulated Surplus / (deficit) (Opening Balance 1 July 2015)
Decrease / (Increase) in Trade and other payables from exchange transactions (Opening Balance 1 July 2015)

(Decrease) / increase in Operating Leases
Rent expense
Decrease / (Increase) in Trade and other payables from exchange transactions
Rental leases Expenditure: Straight Lining

e) Correction of incorrect electricity charged to debtor's account
During the year it was discovered that a debtor was incorrectly charged for electricity. The error was subsequently corrected.

Decrease / (Increase) in Accumulated Surplus / (deficit) (Opening Balance 1 July 2015)
Increase / (decrease) in VAT receivable (Opening Balance 1 July 2015)

The Municipality has significant current lease arrangements for land and buildings over a period of 9 years and 11 months being subject to increased lease payments.

Total commitments: Municipality as Lessee

576,169	409,017
---------	---------

The Municipality as Lessor

At Statement of Financial Performance date the Municipality has contracted with tenants for the following future minimum lease payments:

Receivable within one year	603,562	603,562
Receivable within two to five years	776,702	776,702
Receivable after more than five years	98,782	98,782
2,152,838	1,440,943	2,152,838

2017-11-30

The Municipality lets its investment properties under operating leases. Property rental income earned during the year was R 546,930 (2016: R 577,419). The properties are maintained by the tenants at their cost. No investment properties have been disposed of since the statement of financial performance date. Properties are leased for periods ranging from 3 to 30 years. Escalations on lease instalments are applied on recommendation of an independent valuator and does not exceed 10% pa.

Drakenstein Municipality entered into an agreement with Anytime Investments 14 Pty (Ltd) during 2010, with the purpose of urban regeneration. In terms of the agreement, the private party (Anytime) would lease Erf 20343 Paarl (Wamakeersplein) for a period of 30 years with an extension option of another 20 years, during which time a commercial facility will be constructed and operated by the private party. Furthermore the various other municipal owned parking areas and sections of street parking will be leased from the municipality for a period of 7 years and operate these as paid parking facilities. This will also co-include with the upgrading of these areas (parking areas and sidewalks) by the private party.

In terms of the agreement, if any of the agreements were to come to an end due to the non-conformance to any suspensive condition, the parties will negotiate in good faith to come to a fair agreement to ensure that the private party can recoup the direct expenses to the parking areas, which may include a lease for a limited time, so that the private party's expenses can be recouped by way of a lease of sufficient length.

Up to 30 June 2017, the commercial property had not been constructed, an obligation of the private party in terms of the agreement. The lease of Erf 20343 as well as the other areas has been accounted for as an operating lease since the inception of the lease agreements.

Lease commitments have been restated according to GRAP 3. Refer to Note 40 on "Prior Period Adjustments" for details of the restatement.

42. UNAUTHORISED, IRREGULAR, FRUITLESS AND WASTEFUL EXPENDITURE DISALLOWED

42.1 UNAUTHORISED EXPENDITURE

46. FINANCIAL INSTRUMENTS

46.1 Fair Value of Financial Instruments

The management of the municipality is of the opinion that the carrying value of Financial Assets and Financial Liabilities recorded at amortised cost in the Annual Financial Statements approximate their fair values, except for the listed Government stock. In accordance with GRAP 104 the Fair Values of Financial Assets and Financial Liabilities, together with the carrying amounts shown in the Statement of Financial Position, are as follow:

NOTE	2017	2016
FINANCIAL ASSETS		
Fair Value		
Listed Investments	132,990	393,475
Amortised cost	132,990	393,475
Non-current receivables from exchange transactions	639,478,762	616,416,197
Trade and other receivables from exchange transactions	2,167,195	2,803,981
Receivables from non-exchange transactions	234,189,002	198,612,518
Current Portion of Receivables from exchange transactions	74,580,052	72,337,820
VAT Receivable	38,941,816	349,909
Bank Balances and Cash	289,280,521	324,705,061
Total Financial Assets	639,611,753	616,809,672
FINANCIAL LIABILITIES		
At amortised cost:		
Unsecured Bank Facilities:	1,535,357,223	1,208,317,064
- Annuity Loans	1,031,713,331	770,530,304
- Finance leases	1,029,648,672	768,548,875
- Bank Overdraft	2,064,660	1,981,429
Trade and Other Payables:	503,643,891	438,786,761
- Consumer Deposits	37,806,852	33,951,535
- Trade and Other Payables from exchange transactions	252,471,509	225,297,003
- Current Portion of Borrowings	50,601,266	43,946,325
- Current Portion of Finance leases	160,839,692	134,288,458
- VAT Payable	1,924,571	1,080,956
Total Financial Liabilities	1,535,357,223	1,208,317,064
Total Financial Instruments	(895,745,470)	(592,507,393)

The Fair Values of Financial Assets and Financial Liabilities are determined as follow:

discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.

The fair value of Other Financial Assets and Financial Liabilities were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratios of the municipality's debtors.

The Annual Financial Statements include holdings in Listed Government Stock which are measured at Fair Value (Note 15). Fair Value is estimated with standard terms and conditions and traded on active liquid markets is determined with reference to quoted market prices.

Assumptions used in determining Fair Value of Financial Assets and Financial Liabilities

Level 1:-
Fair Values are based on quoted market prices (unadjusted) in active markets for an identical instrument.

Level 2:-
Fair Values are calculated using valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active, or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3:-
Fair Values are based on valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. Also, this category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

46.2 Capital Risk Management
The municipality manages its capital to ensure that the municipality will be able to continue as a going concern while delivering sustainable services to consumers through the optimisation of the debt and equity balance.
The capital structure of the municipality consists of debt, which includes the Long-term Borrowings disclosed in Note 5; Cash and Cash Equivalents disclosed in Note 21; and Equity, comprising Funds, Reserves and Accumulated Surplus as disclosed in Notes 2 to 4 and the Statement of Changes in Net Assets.

Gearing Ratio
The gearing ratio at the year-end was as follows:

Equity	5	23.4
Debt		
Net debt to equity ratio		
Debt is defined as Long- and Short-term Borrowings, as detailed in Note 5.		
Equity includes all Funds and Reserves of the municipality, disclosed as Net Assets in the Statement of Financial Position.		
	1,194,477,595	3,869,863,241
	905,889,718	3,786,450,692
		23.92%

46.3 Financial Risk Management Objectives

Due to largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IFRS mainly apply. Generally, financial assets and liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.
The Directorate: Financial services monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk, credit risk and liquidity. Compliance with policies and procedures is reviewed by internal auditors on a continuous basis, and by external auditors annually. The entity does not enter into or trade financial instruments for speculative purposes.
Internal audit, responsible for monitoring and responding to potential risk, reports quarterly to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

46.4 Significant Accounting Policies

Details of the significant Accounting Policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of Financial Asset, Financial Liability and Equity/Instrument are disclosed in the Accounting Policies to the Annual Financial Statements.

46.5 Market risk

The municipality's activities expose it primarily to the financial risks of changes in interest rates (see Note 46.6 below). No formal policy exists to hedge volatilities in the interest rate market.

SOUTH AFRICA

AUDITOR-GENERAL

NOTE

Classification

External Investments:

Financial Assets

Effect of a change in interest rate on interest bearing financial assets and liabilities

Credit Risk Management section of this note.

outstanding liabilities.

No interest rate sensitivity analysis was performed, as the municipality is not exposed to variable interest rates on outstanding liabilities.

...municipality invests its surplus funds on fixed interest rate deposits with banks for fixed terms not exceeding one year.

The municipality is not exposed to a high level of interest rate risk on its financial liabilities. All of the Municipality's interest bearing external loan liabilities, as detailed in Appendix A, are fixed interest rate loans. Similarly with financial assets, the Municipality invests in fixed interest rate securities.

cash balances.

Potential concentrations of interest rate risk on financial assets consist mainly of fixed deposit investments and bank and cash balances.

fluctuate in amount as a result of market interest changes.

46.6 Interest Rate Risk

46.7 Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Council. The Municipality manages liquidity risk by effectively managing its working capital, capital expenditure, external borrowings and cash flows. Standby credit facilities are available with the Municipality's main banker to cater for any unexpected temporary shortfall in operating funds.

The Municipality has access to financing facilities, the total unused amount which is R5 million at the balance sheet date. The Municipality expects to meet its other obligations from operating cash flows and proceeds of maturing financial assets. The Municipality expects to maintain its current debt to equity ratio. This will be achieved through the annual increase in tariffs to maintain the accumulated surplus, as well as the increased use of unsecured bank loan facilities.

46.8 Credit Risk Management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality.

Potential concentrations of credit risk consist mainly of fixed deposit investments, long-term debtors, consumer debtors, other debtors, short-term investment deposits and bank and cash balances.

The Municipality manages credit risk in its borrowing and investing activities by only dealing with well-established financial institutions of high credit standing, and by spreading its exposure over a range of such institutions in accordance with its approved investment policies. Credit risk relating to consumer debtors is managed in accordance with the Municipality's credit control and debt collection policy. The Municipality's credit exposure is spread over a large number and wide variety of consumers and its not concentrated in any particular sector or geographical area. Adequate provision has been made for anticipated bad and doubtful debts. Additional information relating to the analysis of consumer debtors is given in the accounting policies and Note 19 to the financial statements.

The municipality does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The municipality defines counterparties as having similar characteristics if they are related entities. The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings.

The carrying amount of financial assets recorded in the Annual Financial Statements, which is net of impairment losses, represents the municipality's maximum exposure to credit risk without taking account of the value of any collateral obtained.

The maximum credit and interest risk exposure in respect of the relevant financial instruments is as follows:

Maximum Credit and Interest Risk Exposure		NOTE	
Investments	15	132,990	880,459,790
Long-term Receivables	16	2,615,578	393,475
Receivables from Consumer debtors	19.1 + 20.1	498,839,820	3,265,135
Receivables from Other debtors	19.2 + 20.2	50,649,064	426,391,032
VAT receivable / payable	18	38,941,816	3,265,135
Bank and Cash Balances	21	289,280,521	393,475
		880,459,790	824,964,201

47. PUBLIC PRIVATE PARTNERSHIPS

Waste to Energy (WTE)

The Municipality has started with a Public Private Partnership process with a private party, Interwaste, to establish a proposed WTE Facility with the objective of pursuing an alternative waste management solution other than landfilling. The proposed Interwaste PPP agreement would include the integrated management of the DM's waste management operations, including the planning, designing, financing, construction and operation of a Waste to Energy Plan which includes the establishment of a Materials Recovery Facility, Anaerobic Digestion Facility and a Direct Combustion Facility. The results of a feasibility study for the proposed project presented to Council on 23 April 2014, has resulted in Council's approval in principle that the proposed project should proceed. The proposed WTE project is currently nearing the finalisation of an Environmental Impact Assessment (EIA) process that included ten impact assessment studies and extensive public participation. The next stage is a project development phase which will include the preparation of all relevant agreements with the related stakeholders. The Main PPP agreement of the proposed project will only be negotiated and presented to Council for approval once all statutory authorisations and licenses have been obtained. Council consideration of the proposed PPP agreement will be preceded by a process of community consultation and obtaining the views and recommendations of National Treasury, Provincial Treasury as well as the national and provincial departments of Local Government and Environmental Affairs. The PPP is registered with National Treasury as Project M074.

48. RELATED PARTY TRANSACTIONS

Transactions with Key Management Personnel and Councilors:

Compensation made to Key Management Personnel and Councilors is disclosed in note 30 above.
Consumer services rendered to Key Management Personnel amount to R 41,327 (2016: R 38,613).

Outstanding balances on Key Management Personnel's consumer accounts at 30 June 2017 (Current Accounts) amount to R 4,382 (2016: R 0).

Consumer services rendered to Councilors amount to R 1,078,645.23 (2016: R 786,996).

Outstanding balances on Councilors' consumer accounts at 30 June 2017 amount to R 57,577 (2016: R 48,180).

The consumer services are in accordance with approved tariffs that was advertised to the public. No bad debt expenses had been recognised in respect of amounts owed by related parties.

The amounts outstanding are unsecured and will be settled in cash. Consumer Deposits were received from Key Management Personnel and Councilors. No expense has been recognized in the period for bad or doubtful debts in respect of the amounts owed by related parties.

Not all persons in the service of the state is seen as related parties as defined in IPSAS 20, as they do not necessarily control or have an interest that gives them significant influence over the municipality. For disclosure purposes in terms of Supply Chain Management Regulations 45, awards to close family members of persons in the service of the state are disclosed in note 44.2.

49. RETIREMENT BENEFIT INFORMATION

The Municipality makes provision for post-retirement benefits to eligible Councilors and employees who belong to different pension schemes. These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councilors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the Statement of Financial Performance of R 71,459,672 (2016: R 67,421,164) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans.

These schemes are subject to a tri-annual, bi-annual or annual actuarial valuation as set out hereunder.

LA RETIREMENT FUND (PREVIOUSLY CAPE JOINT PENSION FUND)

The LA RETIREMENT FUND operates both as a defined benefit and defined contribution scheme.

Defined Benefit Scheme

The contribution rate payable is under the defined benefit section is 27%, 9% by the members and 23.06 % (period 1 February 2012 - 30 June 2014) and 26.77% (period 1 July 2014 - 30 June 2015) by their councils. The actuarial valuation report at 30 June 2016 disclosed an actuarial valuation amounting to R2,037,843,000 (30 June 2015 : R2,136,012,000), with a net accumulated surplus of R67,791,000 (2015 : R28,015,000), with a funding level of 103.5% (30 June 2015 : 101.4%).

Defined Contribution Scheme

The actuarial valuation report at 30 June 2016 indicated that the defined contribution scheme of the fund is in a sound financial position, with assets amounting to R1,960,970,000.00 (30 June 2015: R1,932,720,000), net investment reserve of R0 (30 June 2015 : R0) and with a funding level of 100% (2015: 100%).

The actuary concluded that:

- The Pensioner account has a funding level of 103.5% with a surplus of R67.8 million and is in a sound financial condition as at the valuation date.
- There is a surplus of R49.1 million in The DB Section excluding The surplus in The Pensioner Account. The surplus has been allocated to The Pensioner Account.
- The overall funding level in respect of the DB Section including the Pensioner Account is 106.1% with a surplus of R116.9 million.
- The DC Section has a funding level of 100% and is in a sound Financial condition.
- Overall the fund is in a sound financial condition with a surplus of R116.9 million and the overall funding level of 103.0%.
- The Trustees awarded a 4% pension increase effective 1 January 2017.

It is to be noted that:

- All the active members have now all been converted to the DC Section.
 - There is no longer any contribution rate shortfall as this only applied to 29 residual DB Section active members, that have now also converted to the DC Section and
 - Both the DC Section and the DB Section were fully funded as at the valuation date.
- The actuary certified The Pensioner Account was 103.5% funded with a surplus of R68 million and is in a sound financial condition. The funding level in respect of the DB active members was 0% with a surplus of R49 million. The DB Section is in a sound financial condition and the DC Section has a funding level of 100% and is in a sound financial condition. Overall the Fund is in a sound financial condition with a surplus of R117 million and an overall funding level of 106.1%. The nature of the assets is suitable for the Fund, except that the proportion of direct property underlying the pensioner liabilities may represent an over-concentration of assets in this class. The assets are appropriately matched relative to the term and nature of the active member liabilities. The Fund's investment strategy is suitable. Finally the risk benefits are partially re-insured and this is appropriate for the size and nature of the Fund.

CONSOLIDATED RETIREMENT FUND FOR LOCAL GOVERNMENT (PREVIOUSLY KNOWN AS CAPE JOINT RETIREMENT FUND)

The statutory valuation performed as at 30 June 2016 revealed that the assets of the fund amounted to R20,075,000,000 (30 June 2015: R18,322,177,000), with funding levels of 118.0% and 100% (30 June 2015 112.1% and 100%) for the Pensions Account and the Share Account respectively. The Preservation Pension Account showed a surplus of R0 and was 100% funded for both 2016 & 2015. The contribution rate paid by the members (7.50%/9%) and the municipalities (19.50%/18%) is sufficient to fund the benefits accruing from the fund in the future. The actuary certified that the structure of the assets is appropriate relative to the nature of the liabilities, given normal circumstances and that the Fund is in a sound financial condition as at the valuation date.

SALA PENSION FUND

The SALA Pension Fund operates both as a defined benefit and defined contribution scheme.

The statutory valuation performed as at 1 July 2015 revealed that the assets of the fund amounted to R13,413,300,000 (30 June 2014: R12,658,200,000), with funding levels of 100% (30 June 2014: 100%). The highest contribution rate paid by the members was 7.92% and by Council 20.78%.

It is the actuary's opinion that:

- They are satisfied with the investment strategy of the Fund;
- the nature of the assets is, in their opinion, suitable for the nature of the liabilities of the Fund as defined in the Rules of the Fund;
- the matching of assets with the liabilities of the Fund is adequate; and
- the insurance arrangements are appropriate compared to the cover provided can be regarded as financially sound at the valuation date.

MUNICIPAL COUNCILLORS' PENSION FUND
The Municipal Councilors Pension Fund operates as a defined contribution scheme. The statutory valuation performed as at 30 June 2015 revealed that the assets of the fund amounted to R2,229,410,000, with funding levels of 101.08% (30 June 2014: 98.83%). The contribution rate paid by the members (13.75%) and council (15%) is sufficient to fund the benefits accruing from the fund in the future. The Actuary certified that the Fund was in a sound financial condition as at 30 June 2015, in that the assets of the fund were sufficient to cover the accrued service liabilities including the recommended contingency reserves in full.

NATIONAL FUND FOR MUNICIPAL WORKERS
The fund operates as a defined contribution fund and in terms of the rules of the fund category A and category C members contribute at a rate as agreed upon by the Local Authority and the member, subject to an absolute minimum contribution of 2% and 5% of their remuneration respectively. The Local Authority must contribute in respect of category A and category C members such an amount as agreed between the Local Authority and the fund, subject to a minimum contribution rate of 2% and 5% of their remuneration respectively. Category B members are members who belong to both category A and C and the Local Authority must, on behalf of such members, not contribute less than 7% of their remuneration. The contribution rates stipulated above include the amount payable towards the insured risk benefits policy.

The statutory valuation performed as at 30 June 2015 revealed that the assets of the fund amounted to R10,050,029,000 (30 June 2014 : R 9,031,759,000), with funding levels of 100.42% (30 June 2014: 100.10%). The actuary certified that the assets of the fund are sufficient to cover 100.42% of the members' liabilities, also that it can be expected that the funding level of a fund of this nature will fluctuate around 100%, for example due to timing differences in investment and receipt of monies, slight mismatching of assets and liabilities and processing errors.

SOUTH AFRICAN MUNICIPAL WORKERS UNION NATIONAL PROVIDENT FUND

The SAMWU National Provident Fund is a defined contribution scheme. Members contribute at a rate of not less than 7.5% of salaries, as required by the Rules. The employers contribute at a total rate of not less than 18%. The statutory valuation performed as at 30 June 2014 revealed that the assets of the fund amounted to R8,574,775,000 (30 June 2011 : R4,021,622,000), with funding levels of 111.7% (30 June 2011: 111.1%). The investment smoothing reserve has remained unchanged at 4.6% of the market value of assets (or 5.5% of members' Fund Credits and the data reserve). The actuary certified that based on the 2014 valuation the Fund's assets are sufficient to cover the members' Fund Credits, Risk Benefits Reserve and the Data Reserve and to provide for an investment smoothing reserve of 5.55% of members' Fund Credits as at 30 June 2014. In addition, there is a substantial surplus of some R689.1 million. The Fund is therefore in a very sound financial position.

50. CONTINGENCIES

Contingent Liabilities

Nova Packhouse (Pty) Ltd

Claim for damages

On 20 April 2009 a fire caused severe and extensive damage to the buildings and the facilities, including moveable assets of the claimants (Nova Packhouse / Colours Packhouse (Pty) Ltd). It is alleged that the fire could have been contained and loss suffered reduced had various fire preventative mechanisms been installed at the premises. The plaintiff has withdrawn the action against the insured. The matter has been finalised.

Paarl Print (Pty) Ltd - Destruction of property

Claim for damages

A fire destroyed the Paarl Print property on 25867, Paarl during September 2009. As a result of this incident, the applicant during March 2012 lodged a claim against the Municipality to the amount of R448,819,503.79. Claim was referred to Council's insurers and notice of intention to defend was lodged by the insurer's legal representatives. A court date has not yet been set. Should Council be unsuccessful in defending the claim, there is a possibility that the claim will be settled. No further action since 2012.

A Maans - Paarl Print

Claim for damages

The Municipality is being sued by the spouse of an employee of Paarl Print who was killed during the Paarl Print fire (refer above). A court date has not yet been set. Should Council be unsuccessful in defending the claim, there is a possibility that the claim will be settled. No further action since 2012.

JA Cliff (Pty) Ltd - Fire Paarl Mountain

Claims for damages

The Municipality is being sued by JA Cliff (Pty) Ltd for losses suffered by fire. It is alleged by the Plaintiff that on 4 March 2009 a wild fire started on Erf 1, Paarl whereafter it spread to the property of the Plaintiff on 06 March 2009. As a result of the plaintiff sustained extensive damage to olive trees and vineyards as a further result of which the plaintiff suffered damages as claimed in the summons and particulars of the claim. An award was made in favour of the plaintiff, and will be settled by the Municipality's insurers, the only outflow would be the estimated excess to be approximately R 5,000. Matter has been settled, but the costs of the plaintiff is still to be taxed.

Automa Building Products (Pty) Ltd - Services Rendered

A claim of R 66,509.00 with interest of 15.5% per annum was instituted against the Municipality for services rendered. The matter is regarded as being closed and it is highly unlikely that there will be any further action.

GM Ward - Road Accident Fund claim

The plaintiff, G M Ward is claiming damages of approximately R 7,000,000.00 against the Municipality and the Road Accident Fund. The matter has been finalised in respect of both merits and quantum. The only aspect which is outstanding is taxation of the cost related to the quantum portion of the matter.

Fringe benefit for housing rental
In terms of paragraph 2(d) of the 7th Schedule of the Income Tax Act, 1962 (Act No. 58 of 1962), a taxable benefit is deemed to have been granted where the employer has provided the employee with residential accommodation either free of charge or for a rental consideration which is less than the value of such accommodation. It was identified that municipal houses are being rented to employees in certain instances where rent which is lower than a market related rental. A contingent liability exists for the PAYE on the fringe benefit obtained by the employees for residing in these premises, the amount of which cannot be determined with certainty.

MP Wessels - Personal Injury

The plaintiff, MP Wessels is claiming from the Municipality for personal injury due to the plaintiff's motorcycle hitting a pothole. The claim has been quantified and a mandate is awaited from the insurer to make an offer to the plaintiff in settlement of the claim. The municipality's exposure is limited to their excess amount payable.

KG & CG De Jager - Personal Injury

The plaintiff, K G & C G De Jager is claiming from the Municipality for personal injury due to the plaintiff's motorcycle hitting a pothole. The municipality's exposure is limited to their excess amount payable.

LR Brown - Personal Injury

The plaintiff, Lester Ronald Brown is claiming from the Municipality for damages related to soft tissue injury after a part of the railway bridge collapsed. No further legal action since March 2014, unlikely to proceed.

C Veldsman - Personal Injury

The plaintiff, Carmen Veldsman is claiming from the Municipality for damages to a vehicle after a ditch was dug across the road. No further steps have been taken by plaintiff to date. No further steps have been taken by plaintiff to date. The matter has been finalised.

DL van Rooy - Damages claims

The plaintiff, DL van Rooy is claiming from the Municipality for damages. The matter is being dealt with by the insurers' attorney. The plaintiff withdrew the action against the insured. In the circumstances the matter has been finalised.

CN Koch - Damages claims

The plaintiff, CN Koch is claiming from the Municipality for damages arising from a pot hole that the plaintiff drove in and lost control over the vehicle and suffered damages. The matter is being dealt with by the insurers' attorney. No further legal action for the past 18 months.

R Morris - Damages

The plaintiff, R Morris is claiming from the Municipality for damages. The Municipality has been cited as the 2nd defendant, after the 1st defendant hit a pot hole and collided into another vehicle. The matter is being dealt with by the insurers' attorney.

D Theys - Damages

The plaintiff, D Theys is claiming from the Municipality for damages after hitting a sandbag and then collided with a fence. The matter is being dealt with by the insurers' attorney. Waiting for plaintiff to set the matter down for hearing. The claims of D Theys, OL Veroni and HL Carolissen have now been consolidated into one case.

OL Veroni - Damages

The plaintiff, OL Veroni is claiming from the Municipality for damages after hitting a sandbag and then collided with a fence. The matter is being dealt with by the insurers' attorney. Waiting for plaintiff to set the matter down for hearing. The claims of D Theys, OL Veroni and HL Carolissen have now been consolidated into one case.

HL Carolissen - Damages

The plaintiff, H Carolissen is claiming from the Municipality for damages after hitting a sandbag and then collided with a fence. The matter is being dealt with by the insurers' attorney. Waiting for plaintiff to set the matter down for hearing. The claims of D Theys, OL Veroni and HL Carolissen have now been consolidated into one case.

M De Villiers - Damages

The matter has been referred to our internal insurer department on 14/12/2015. Attorney firm Visagie Vos has been appointed to act on behalf of Drakenstein Municipality. Notice of intention to defend has been filed and the exchange of pleadings has been finalised. It is now for the Plaintiff to apply for a trial date and the waiting period for such a date is approximately 18 months. Waiting or the plaintiff to set the matter down for hearing.

L van Riet - Damages

Matter referred to our internal insurer. Attorney appointed by our broker to represent the municipality in this case. Nagesh Maharaj Attorneys has been appointed on 30/9/2015 to act on behalf of the Municipality. Lion of Africa settled the insurance claim.

Drakenstein Municipality - Distell Ltd

The plaintiff claims for the amount of R113 650,50 due to payment that was erroneously made on Municipal account. Notice of intention to defend filed at court 27/11/2015.

-----------	-----------	-----------

Neil Lyners & Associates CC

Claim for damages during installation of Civil Infrastructure services under contract CES9/2011 Syahala. Formal letter of demand was served on the Respondent dated 22/07/2015. Summons was issued. Matter still in progress.

51. BIOLOGICAL ASSETS

The Municipality has various species of Proteacea growing on the Paarlberg (Erf 1 Paarl), a National heritage site. Due to the fact that the plants are growing in a nature reserve it is protected by the Nature Conservation Act 19 of 1974 a special permit must be obtained to harvest any seeds produced by these plants. These plants produce seedlings on a yearly basis conditions such as fire, furthermore there is no input cost by the municipality in order to enhance the growth of these plants or to control it as what would normally be seen in an agricultural activity. These plants produce seedlings on a yearly basis that can result in plants but the municipality cannot determine the quantity of plants as these plants are all in different stages of growth. For the reasons above these plants are not recognised and accounted for in terms of GRAP 27, Agriculture.

52. DISTRIBUTION LOSSES

WATER

Reconciliation of water losses

Kilolitres bought

Kilolitres sold

Kilolitres lost

Value of losses (cost)

Percentage of losses

Norm of losses

Reasons for losses:

Burst pipes

Use of unmetered fire water connections at flat buildings and factories.

Open spaces & sports fields that is still unmetered

Undetected leaks underground

Scouring of mainlines and reservoirs as part of the operational procedure to ensure good water quality

*The water losses per the Annual Financial Statements takes into account water that was metered but not billed. Whereas the Annual Performance Report shows an actual water loss of 9.27%, as unbilled metered water is not taken into account.

ELECTRICITY

Reconciliation of KWh losses

KWh units bought

KWh units sold

KWh units lost

Value of losses (cost)

Percentage of losses

Norm of losses

Reasons for losses:

Technical losses

Unmetered services

Theft

53. REPORTING AGAINST THE FRAMEWORK FOR SCHEDULE 4 OF DORA ALLOCATIONS

Submit project registrations and detail project implementation plans before the prescribed due dates. Department of Provincial and Local Government is monitoring the overall programme implementation.

R

2017
R

Budget basis differences mainly relate to Revenue from Housing Grants and the related Housing expenditure where Drakenstein Municipality is regarded as an agent in terms of GRAP amounting to R 4,890,102 and subsidies for free-basic services provided to indigent consumers which is budgeted for as expenditure under Other Expenditure, but regarded as Revenue foregone in terms of GRAP amounting to R90,334,313. The mSCOA tables and the format of the Budget Schedules as issued by National Treasury are not yet fully aligned to the Standards of GRAP and this is therefore the reason for the disparity in classifications between the 2016/17 Budget and GRAP Annual Financial Statements.

* - Statement of Financial Performance classifications

56. BUDGET INFORMATION

The budget has been prepared on the accrual basis of accounting in accordance with the prescripts of the Municipal Budget Regulations as well as MFMA Budget circulars. In accordance with the Municipal Budget Regulations, the classification basis the municipality presents its budget is per economic as well as per functional classification (per Vote (Department) and GFS classification). It should be noted that minor budget differences between the basis the budget is prepared (accrual basis and prescripts of NT guidance) and actual financial results (accrual basis in accordance with GRAP) exists, mainly related to technical GRAP adjustments required. These differences are not material and as the basis of preparation is the same (accrual basis), no restatements have been made to the financial information compared to the budgeted amounts, but where found to be material it is explained in the explanations below:

56.1 Explanation of variances between approved and final budget amounts

The reason for the variances between the approved and final budgets are mainly due to reallocations made within the approved budget parameters allowed for by the Virement Policy of Drakenstein Municipality as approved by Council.

56.2 Explanation of variances greater than 10%: Final Budget and Actual amounts

56.2.1. Statement of financial position

- i) Current Assets
 - Receivables from Non-exchange transactions
 - The unpredictability of traffic fines debtors, resulted in receivables from non-exchange transactions being under budgeted.
 - VAT Receivables
 - Incorrect budget assumptions were used to budget for this item.

ii) Current Liabilities

- Provisions
- During the period under review the provision for landfill site decreased which was unforeseen at time of budgeting.
- No line item for Unspent Conditional Grants, Retirement Benefit Liabilities and Finance Lease Liability on the regulated budget schedules.
- Unspent Conditional Grants
- No line item for the above on the regulated budget schedules. Budget was included under "Payables".
- Current portion of Retirement Benefit Liabilities
- No line item for the above on the regulated budget schedules. Budget was included under "Payables".
- Finance lease liability
- No line item for the above on the regulated budget schedules. Budget was included under "Payables".
- No line item for the above on the regulated budget schedules. Budget was included under "Payables".

iii) Non-current Liabilities

- Retirement Benefit Liabilities
- No line item for the above on the regulated budget schedules. Budget was included under "Non current provisions".
- Non-current Provisions
- No line item for Retirement Benefit Liabilities and Finance Lease Liability on the regulated budget schedules. Budget was included under the above.
- Finance lease liability
- No line item for the above on the regulated budget schedules. Budget was included under "Reserves".

iv) Net Assets

- Statutory Funds
- No line item for the above on the regulated budget schedules. Budget was included under "Reserves".
- Reserves
- All "internal" reserves, which forms part of the Accumulated Surplus, were incorrectly included in the above budget
- Accumulated Surplus / (Deficit)
- All "internal" reserves, which forms part of the Accumulated Surplus, were incorrectly included in the budget for "Reserves".

56.2.2. Statement of financial performance

- i) Revenue from Non-exchange Transactions
 - Fines
 - Application of IGRAP1, calculated income was less than initially anticipated.
 - More licences issued than anticipated.
 - Licences and Permits
 - Transfers recognised - Operational
 - Underspending on the allocation from Department of Human Settlements due to delays in approved projects.
- ii) Revenue from Exchange Transactions
 - Interest earned - External Investments
 - Increase in investment portfolio resulted in more interest received.
 - Interest earned - Outstanding Debtors
 - Additional interest due to more stringent credit control procedures.
 - Other income
 - Recognition of unallocated deposits in terms of Council approved policies.
